NEW QUESTION: 1

What are two methods for sending bearer access tokens in resource requests to servers?
(Choose two)

- A. in the HTTP API schema
- B. in the "Authorization" request header field
- C. in the HTTP request entity-body
- D. in the HTTP request URI
- E. in plaintext for user access

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 2

Which two data encoding techniques are supported by gRPC? (Choose two.)

- A. XML
- B. JSON
- C. YAML
- D. ASCII
- E. ProtoBuf

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 3

Refer to the exhibit.

Which set of API requests must be executed by a Webex Teams bot after receiving a webhook callback to process messages in a room and reply with a new message back to the same room?

- A. Option A
- B. Option D

C. Option B

D. Option C

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 4

Drag and Drop the application requirement on the left onto the database type that should be selected for the requirement on the right.

Answer:

NEW QUESTION: 5

Refer to the exhibit.

Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the cURL exhibit to complete the cURL request to FirePower Device Manager API to create objects. Not all code snippets are used.

Answer:

NEW QUESTION: 6

Refer to the exhibit. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the curl exhibit to complete the cURL request to FirePower Device Manager API to create objects. Not all code snippets are used.

Answer:

NEW QUESTION: 7

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question. The script uses the Cisco Intersight REST API. Drag and drop the code snippets from the left onto the item numbers on the right to match the missing sections in the Python script to update the firmware on specific Cisco Intersight USC rack server.DMZ_R-L3-ADJM. Not all code snippets are used.

Answer:

NEW QUESTION: 8

Which RFC5988 (Web Linking) relation type is used in the Link header to control pagination in APIs?

A. rel="index"

B. rel="page"

C. rel="next"

D. rel="section"

Answer: ([SHOW ANSWER](#))

Section: Using APIs

NEW QUESTION: 9

Refer to the exhibits. An interface named "GigabitEthernet2" has been configured on a Cisco IOS XE device.

Using RESTCONF APIs as defined by the model, which two combinations of "rest_operation" and "payload" must be added to the Python script to set the "description" to "Configured by RESTCONF"? (Choose two.)

- A. Option B
- B. Option C
- C. Option A
- D. Option D
- E. Option E

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 10

DRAG DROP

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question.

A developer is creating a Python Script that will use the Webex Teams REST API to automatically create a new collaboration space with him and his team leads on-demand via a Linux terminal command. Drag and drop the code snippets from the left onto the numbers on the right that match the missing sections in the exhibit to complete the script. Not all code snippets are used.

Answer:

NEW QUESTION: 11

Refer to the exhibit.

As part of the Ansible playbook workflow, several new interfaces are being configured using the netconf_config module. The task references the interface variables that are unique per device. In which directory is the YAML file with these variables found?

- A. host_vars directory
- B. group_vars directory
- C. current working directory
- D. home directory

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 12

The UCS Python SDK includes modules for Service Profile template creation. Which two UCS Service Profile template types are supported? (Choose two.)

- A. initial-template
- B. updating-template
- C. abstract-template

D. attached-template

E. base-template

Answer: ([SHOW ANSWER](#))

Section: Cisco Platforms

NEW QUESTION: 13

AppGigabitEthernet interface is used as data port for a container on a Cisco Catalyst 9000 Series Switch. Which two interface configuration options should be used? (Choose two.)

A. subinterface

B. SPAN port

C. bridged virtual interface

D. trunk interface

E. management interface

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

Refer to the exhibit.

Python threading allows a developer to have different parts of a program run concurrently and simplify a design. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to create a thread instance.

Answer:

NEW QUESTION: 15

Refer to the exhibit.

What is the missing step in deploying a Docker container to IOx?

A. Pull/push the image to the Docker registry,

B. Build the package.yaml! file.

C. Build the package.cert file to sign the app ,

D. Log in to Device Manager.

Answer: ([SHOW ANSWER](#))

Explanation

NEW QUESTION: 17

What is a benefit of continuous testing?

- A. increases the number of bugs found in production
- B. removes the requirement for test environments
- C. enables parallel testing
- D. decreases the frequency of code check-ins

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 18

Refer to the exhibit.

An application has been developed to serve the users in an enterprise After HTTP cache controls are implemented in the application users report that they receive state data when they refresh the page Without removing HTTP cache controls, which change ensures that the users get current data when refreshing the page'

- A. Add an H-None-Match header that has a value of an Entity Tag.
- B. Add a Cache-Control header that has a value of no-cache, no-store must-revalidate.
- C. Add an Expires header that has a value of 0.
- D. Reduce the expire_after value to 60.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 19

Which two actions must be taken when an observable microservice application is developed? (Choose two.)

- A. Place "try/except" statement in code.
- B. Know the state of a single instance of a single service.
- C. Deploy microservice to multiple datacenters.
- D. Place log statements in the code.
- E. Use distributed tracing techniques.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 20

A developer has created an application based on customer requirements. The customer needs to run the application with the minimum downtime. Which design approach regarding high-availability applications, Recovery Time Objective, and Recovery Point Objective must be taken?

- A. Active/passive results in lower RTO and RPO. For RPO, data synchronization between the two data centers does not need to be timely to allow seamless request flow.
- B. Active/active results in lower RTO and RPO. For RPO, data synchronization between the two data centers does not need to be timely to allow seamless request flow.
- C. Active/active results in lower RTO and RPO. For RPO, data synchronization between the two data centers must be timely to allow seamless request flow.
- D. Active/passive results in lower RTO and RPO. For RPO, data synchronization between the two data centers must be timely to allow seamless request flow.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 21

Refer to the exhibit. Which key value pair from the ios_ntp Ansible module creates the NTP server peer?

- A. state: absent
- B. state: False
- C. config: absent
- D. config: False

Answer: ([SHOW ANSWER](#))

Section: Mixed Questions

NEW QUESTION: 22

Refer to the exhibit.

Which set of API requests must be executed by a Webex Teams bot after receiving a webhook callback to process messages in a room and reply with a new message back to the same room?

- A. Option C
- B. Option A
- C. Option B
- D. Option D

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

Refer to the exhibit.

Which additional line results in the output of Test 1 upon execution of the docker run --rm devnet 1 command in a Dockerfile with this content?

- A. RUN ["/bin/echo", "Test"]
- B. CMD ["/bin/echo Test"]
- C. ENTRYPOINT ["/bin/echo", "Test"]

D. CMD ["/bin/echo", "Test"]

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

An application is being built to collect and display telemetry streaming data. Drag and drop the elements of this stack from the left onto the correct element functions on the right.

Answer:

NEW QUESTION: 25

Drag and drop the code from the bottom onto the box where the code is missing in the Python script to execute a REST API call to query all the NTP policy names and print the name of each policy. Not all options are used.

Answer:

NEW QUESTION: 26

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question. Python code that uses the UCS Python SDK is instantiating a service profile named

"devcore-server-01" from service profile template "device-template" , then associating the service profile instance to blade 3 in chassis 7. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the Python exhibit.

Answer:

NEW QUESTION: 27

Refer to the exhibit.

A developer created the code, but it fails to execute. Which code snippet helps to identify the issue?

- A. Option A
- B. Option D
- C. Option C
- D. Option B

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 28

Refer to the exhibit.

Which two functions are performed by the load balancer when it handles traffic originating from the Internet destined to an application hosted on the file server farm? (Choose two.)

- A. Terminate the TLS over the SCTP connection from the router and originate an HTTPS connection to the selected server.

- B.** Terminate the TLS over the TCP connection from the router and originate an HTTP connection to the selected server.
- C.** Terminate the TLS over the UDP connection from the router and originate an HTTPS connection to the selected server.
- D.** Terminate the TLS over the TCP connection from the router and originate an HTTPS connection to the selected server.
- E.** Terminate the TLS over the UDP connection from the router and originate an HTTP connection to the selected server.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 29

Refer to the exhibit.

Which code snippet is required in the headers to successfully authorize wireless information from Cisco DNA Center?

- A.** headers = {'X-auth-token':'fa8426a0-8eaf-4d22-8e13-7c1b16a9370c'}
- B.** headers = {'Authorization':'Bearer ASDNFALKJER23412RKDALSNKF'}
- C.** headers = {'Content-type':'application/json'}
- D.** headers = {'Authorization':'Basic YWRtaW46R3JhcGV2aW5IMQ=='}

Answer: **A** ([LEAVE A REPLY](#))

NEW QUESTION: 30

Drag and Drop Question

Drag and drop the steps from the left into the correct sequence on the right to describe how to use Git to maintain the current HEAD and revert back to a previous commit, while undoing all intermediate commits.

Answer:

NEW QUESTION: 31

Refer to the exhibits. An interface named "GigabitEthernet2" has been configured on a Cisco IOS XE device. Using RESTCONF APIs as defined by the ietf-interfaces@2014-05-08.yang model, which two combinations of "rest_operation" and "payload" must be added to the Python script to set the "description" to "Configured by RESTCONF"? (Choose two.)

- A.**
- B.**
- C.**
- D.**
- E.**

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 32

AppGigabitEthernet interface is used as data port for a container on a Cisco Catalyst 9000 Series Switch.

Which two interface configuration options should be used? (Choose two.)

- A. subinterface
- B. bridged virtual interface
- C. SPAN port
- D. management interface
- E. trunk interface

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

Refer to the exhibit. Which snippet creates a Webex Teams space and adds the users in the variable user list to that space?

- A)
- B)
- C)
- D)
- A. Option C
- B. Option A
- C. Option B
- D. Option D

Answer: ([SHOW ANSWER](#))

Which line of code must be added to this code snippet to allow an application to pull the next set of paginated items?

- A. requests.get(res.links['next']['url'], headers=headers)
- B. requests.get(url, headers=links['next']['url'])
- C. requests.get(res.headers.get('Link')['next']['url'], headers=headers)
- D. requests.get(url, links=['next']['url'])

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 35

Refer to the exhibit. Drag and drop the code snippets from the bottom onto the blanks in the code to provision a new UCS server. Not all options are used.

Answer:

NEW QUESTION: 36

A developer must recommend an appropriate tool to deploy a configuration to hundreds of servers. The configuration management solution must meet these requirements.

- * The servers must initiate the connection to obtain updates
- * The configuration must be defined in a declarative style

Which tool should be used?

- A. Ansible
- B. Chef
- C. Terraform
- D. Puppet

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 37

Refer to the exhibit.

What is the output of this IOS-XE configuration program?

- A. interface operational status in IPv4 addresses
- B. interface operational status in IPv6 addresses
- C. interface administrative status in IPv4 addresses
- D. interface administrative status in IPv6 addresses

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 38

Refer to the exhibit.

A kubeconfig file to manage access to clusters is provided. How many clusters are defined and which of them are accessed using username/password authentication versus certificate?

- A. two clusters; scratch
- B. two clusters; development
- C. three clusters; scratch
- D. three clusters; development

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 39

Drag and Drop Question

Refer to the exhibit. The self-service Webex Teams bot is failing when many users attempt to interact with it at the same time. Drag and drop the code snippets from the left onto the correct item numbers on the right that match the missing sections in the exhibit to complete this code to handle this high-load situation.

Answer:

NEW QUESTION: 40

Drag and Drop Question

A developer is creating a Python script to use the Webex Teams REST API to list joined spaces, and gracefully handle and print the errors it receives. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script.

Answer:

NEW QUESTION: 41

Drag and drop the expressions from below onto the code to implement error handling. Not all options are used.

Answer:

NEW QUESTION: 42

A developer is creating a Python script to use the Webex Teams REST API to list joined spaces, and gracefully handle and print the errors it receives. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script.

Answer:

NEW QUESTION: 43

Drag and Drop Question

A network engineer needs to retrieve interface data using the Cisco IOS XE YANG Model. Drag and drop the components from the bottom onto the box where the code is missing to complete the RESTCONF URI.

Not all options are used.

Answer:

Explanation:

https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/prog/configuration/166/b_166_programmability_cg/restconf_prog_int.html

NEW QUESTION: 44

There is a requirement to securely store unique usernames and passwords. Given a valid username, it is also required to validate that the password provided is correct. Which action accomplishes this task?

- A. Encrypt the username, hash the password, and store these values.
- B. Hash the username, hash the password, and store these values.
- C. Encrypt the username, encrypt the password, and store these values.
- D. Hash the username, encrypt the password, and store these values.

Answer: (SHOW ANSWER)

Section: Application Deployment and Security

NEW QUESTION: 45

Refer to the exhibit.

The YAML represented is using the `ios_vrf` module. As part of the Ansible playbook workflow, what is the result when this task is run?

- A. VRFs not defined in the `host_vars` file are added to the device, and any other VRFs on the device remain.
- B. VRFs are added to the device from the `host_vars` file, and any other VRFs on the device are removed.
- C. VRFs not defined in the `host_vars` file are removed from the device.
- D. VRFs defined in the `host_vars` file are removed from the device.

Answer: (SHOW ANSWER)

NEW QUESTION: 46

Drag and drop the expressions from below onto the code to implement error handling. Not all options are used.

Answer:

NEW QUESTION: 47

Drag and Drop Question

A Python application is being written to run inside a Cisco IOS XE device to assist with gathering telemetry data. Drag and drop the elements of the stack from the left onto the functions on the right to collect and display the telemetry streaming data.

Answer:

NEW QUESTION: 48

Refer to the exhibit.

This snippet of a script has recently started exiting abnormally with an exception stating "Unexpected HTTP Response code: 429".

Which solution handles rate limiting by the remote API?

- A. Option A
- B. Option D
- C. Option C
- D. Option B

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 49

Which two strategies are used to protect personally identifiable information? (Choose two.)

- A. Only encrypt usernames and passwords for efficient lookup.
- B. Encrypt hash values of data.
- C. Encrypt data in transit.
- D. Encrypt data at rest.
- E. Only hash usernames and passwords for efficient lookup.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 50

Drag and Drop the application requirement on the left onto the database type that should be selected for the requirement on the right.

Answer:

NEW QUESTION: 51

Refer to the exhibit.

Which command results in a detached HEAD scenario?

- A. git checkout Branch-5
- B. git checkout log -2
- C. git checkout master
- D. git checkout 5af25b

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 52

The response from a server includes the header ETag:

W/"7eb8b94419e371767916ef13e0d6e63d". Which statement is true?

- A. The ETag has a Weak validator directive, which is a mandatory directive.
- B. The ETag has a Strong validator directive, which it is incorrectly formatted.
- C. The ETag has a Weak validator directive, which is an optional directive.
- D. The ETag has a Strong validator directive.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 53

Drag and drop the steps from the left into the correct sequence on the right to describe how to use Git to maintain the current HEAD and revert back to a previous commit, while undoing all intermediate commits.

Answer:

NEW QUESTION: 54

Which command is used to enable application hosting on a Cisco IOS XE device?

- A. iox
- B. application-hosting
- C. app-hosting
- D. iox-service

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 55

Drag and drop the expressions from below onto the code to implement error handling. Not all options are used.

Answer:

NEW QUESTION: 56

Drag and Drop Question

Click on the Meraki Resources tab in the left corner to view Meraki documentation to help with this question. Drag and drop the parts of the python code from the left onto the item numbers on the right that match the missing sections in the exhibit to enable an SSID. Not all code parts are used.

Answer:

NEW QUESTION: 57

How should a web application be designed to work on a platform where up to 1000 requests per second can be served?

- A.** Use algorithms like random early detection to deny excessive requests.
- B.** Set a per-user limit (for example, 5 requests/minute/user) and deny the requests from the users who have reached the limit.
- C.** Only 1000 user connections are allowed; further connections are denied so that all connected users can be served.
- D.** All requests are saved and processed one by one so that all users can be served eventually.

Answer: ([SHOW ANSWER](#))

Section: Software Development and Design

NEW QUESTION: 58

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question. Python code that uses the UCS Python SDK is instantiating a service profile named

"devcore-server-01" from service profile template "device-template" , then associating the service profile instance to blade 3 in chassis 7. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the Python exhibit.

Answer:

NEW QUESTION: 59

Refer to the exhibit.

The YAML represented is using the `ios_vrf` module. As part of the Ansible playbook workflow, what is the result when this task is run?

- A.** VRFs are added to the device from the `host_vars` file, and any other VRFs on the device are removed.
- B.** VRFs defined in the `host_vars` file are removed from the device.
- C.** VRFs not defined in the `host_vars` file are removed from the device.
- D.** VRFs not defined in the `host_vars` file are added to the device, and any other VRFs on the device remain.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 60

Refer to the exhibit.

Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script to implement control flow.

Answer:

NEW QUESTION: 61

Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script to implement control flow.

Answer:

NEW QUESTION: 62

Refer to the exhibit. This snippet of a script has recently started exiting abnormally with an exception stating "Unexpected HTTP Response code: 429".

Which solution handles rate limiting by the remote API?

- A.
- B.
- C.
- D.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 63

Drag and Drop Question

Drag and drop the code from the bottom onto the box where the code is missing in the Python script to execute a REST API call to query all the NTP policy names and print the name of each policy. Not all options are used.

Answer:

NEW QUESTION: 64

Refer to the exhibit.

Drag and drop the parts of the Python code from the left onto the item numbers on the right that match the missing sections in the exhibit that consumes REST API pagination.

Answer:

NEW QUESTION: 65

FILL BLANK

Fill in the blanks to complete the Python script to enable the SSID with a name of "376699609" in the network resource "11111111" using the Meraki Dashboard API.

Answer:

See explanation below

NEW QUESTION: 66

What are two features of On-Box Python for hosting an application on a network device? (Choose two.)

- A. It has access to Cisco IOS XE web UI through a controller.
- B. It enables execution of XML scripts on a Cisco IOS XE router or switch.
- C. It supports Qt for graphical interfaces and dashboards.
- D. It has direct access to Cisco IOS XE CLI commands.
- E. It is a Python interpreter installed inside the guest shell.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 67

Application sometimes store configuration as constants in the code, which is a violation of strict separation of configuration from code. Where should application configuration be stored?

- A. environment variables
- B. YAML files
- C. Python libraries
- D. Dockerfiles
- E. INI files

Answer: ([SHOW ANSWER](#))

<https://12factor.net/config>

NEW QUESTION: 68

AppGigabitEthernet interface is used as data port for a container on a Cisco Catalyst 9000 Series Switch.

Which two interface configuration options should be used? (Choose two.)

- A. trunk interface
- B. bridged virtual interface
- C. SPAN port
- D. management interface
- E. subinterface

Answer: ([SHOW ANSWER](#))

Section: Cisco Platforms

NEW QUESTION: 69

Which two actions must be taken when an observable microservice application is developed? (Choose two.)

- A. Know the state of a single instance of a single service.
- B. Place "try/except" statement in code.
- C. Place log statements in the code.
- D. Use distributed tracing techniques.
- E. Deploy microservice to multiple datacenters.

Answer: ([SHOW ANSWER](#))

Section: Application Deployment and Security

NEW QUESTION: 70

Drag and drop the steps from the left into the order on the right to configure and install a container on a Cisco Catalyst 9000 Series Switch.

Answer:

Explanation

D, B,C,A

NEW QUESTION: 71

Drag and drop the expressions from below onto the code to implement error handling. Not all options are used.

Answer:

NEW QUESTION: 72

Refer to the exhibit.

An Intersight API is being used to query RackUnit resources that have a tag keyword set to "Site". What is the expected output of this command?

- A. error message because the Value field was not specified
- B. list of all resources that have a tag with the keyword "Site"
- C. list of all sites that contain RackUnit tagged compute resources
- D. error message because the tag filter should be lowercase

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 73

An enterprise refactors its monolithic application into a modern cloud-native application that is based on microservices. A key requirement of the application design is to ensure that the IT team is aware of performance issues or bottlenecks in the new application Which two approaches must be part of the design considerations" (Choose two.)

- A. Adopt a service-oriented architecture to handle communication between the services that make up the application
- B. Instrument the application code to gather telemetry data from logs, metrics or tracing
- C. Implement infrastructure monitoring to ensure that pipeline components interoperate smoothly and reliably

- D. Deploy infrastructure monitoring agents into the operating system of the host machines
- E. Periodically scale up the resources of the host machines when the application starts to experience high loads

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 74

Refer to the exhibit above and click on the IETF Routing tab in the top left corner to help with this question. A developer is trying to update the routing instance by adding a new route to the routes list using the URL in the exhibit. What action must be taken to fix the error being received?

- A. Fix the body being sent to update the routes list.
- B. Change the URL to `"/ietf-routing:routing-instance/default"`.
- C. Change the url to `"/ietf-routing:routing/routing-instance=default"`.
- D. Change the HTTP Method being used to make the change
- E. Update the authorization credentials.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 75

Refer to the exhibit.

A kubeconfig file to manage access to clusters is provided. How many clusters are defined and which of them are accessed using username/password authentication versus certificate?

- A. two clusters; scratch
- B. three clusters; scratch
- C. three clusters; development
- D. two clusters; development

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 76

Refer to the exhibit.

Drag and drop the parts of the Python code from the left onto the item numbers on the right that match the missing sections in the exhibit that consumes REST API pagination.

Answer:

Explanation

The correct URL from next page can be retrieved by using `response.links['next']['url']`. The use of `response.headers.get('Link')` could be easily replaced by an infinite loop like `'while True:'` and it would be the same. They're just testing our knowledge here. The trick here is that once we reach the last page, `response.links['next']['url']` within the `'try'` context will fail and we'll move to the `'except'` clause and the program will exit.

NEW QUESTION: 77

A bot has been created, called "385001111", to respond to alarm messages. A developer is now creating a Webhook to allow the bot to respond to messages.

Which format allows the Webhook to respond to messages for the bot within Webex Teams?

GET /messages?personId=me&roomId=NETWORK_STATUS

A. Authorization: Bearer THE_BOTS_ACCESS_TOKEN

GET /messages?mentionedPeople=me&roomId=NETWORK_STATUS

B. Authorization: Bearer THE_BOTS_ACCESS_TOKEN

GET /messages?mentionedBot=me&roomId=NETWORK_STATUS

C. Authorization: Bearer THE_BOTS_ACCESS_TOKEN

GET /messages?botId=me&roomId=NETWORK_STATUS

D. Authorization: Bearer THE_BOTS_ACCESS_TOKEN

Answer: ([SHOW ANSWER](#))

Section: Mixed Questions

NEW QUESTION: 78

Refer to the exhibit. The presented application consists of a Nginx container and a load balancer service.

Which GitLab CI/CD configuration implements the Kubernetes deployment?

A. Option C

B. Option B

C. Option A

D. Option D

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 79

A developer has just completed the configuration of an API that connects sensitive internal systems. Based on company policies, the security of the data is a high priority.

Which approach must be taken to secure API keys and passwords?

A. Store them inside the source tree of the application.

B. Store them in a hidden file.

C. Change them periodically.

D. Embed them directly in the code.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 80

Refer to the exhibit.

A developer must configure an SSL certificate for an nginx web server. Which code must be added on the script to accomplish this configuration?

- A)
- B)
- C)
- D)

- A. Option B
- B. Option C
- C. Option D
- D. Option A

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 81

Refer to the exhibit above and click on the resource tabs in the top left corner to view resources to help with this question. The script uses the Cisco Intersight REST API. Drag and drop the code snippets from the left onto the item numbers on the right to match the missing sections in the Python script to update the firmware on specific Cisco Intersight USC rack server DMZ_R-L3-ADJM. Not all code snippets are used.

Answer:

NEW QUESTION: 82

Refer to the exhibit.

A developer is creating a Python script to use the Webex Teams REST API to list joined spaces, retry after the server-specified amount of time if a "Too many requests" response is received, and print any other error that is received. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script. Not all code snippets are used.

Answer:

NEW QUESTION: 83

Refer to the exhibit.

An Intersight API is being used to query RackUnit resources that have a tag keyword set to "Site". What is the expected output of this command?

- A. list of all sites that contain RackUnit tagged compute resources
- B. list of all resources that have a tag with the keyword "Site"
- C. error message because the Value field was not specified

D. error message because the tag filter should be lowercase

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 84

Refer to the exhibit.

A company has extended networking from the data center to the cloud through Transit VPC.

Which two statements describe the benefits of this approach? (Choose two.)

- A. Dedicated VPC simplifies routing by not combining this service with other shared services.
- B. VPC virtual gateways provide highly available connections to virtual networks.
- C. Dedicated VPC simplifies load balancing by combining internal and external web services.
- D. Dynamic routing combined with multi-AZ- deployment creates a robust network infrastructure.
- E. VPC virtual gateways provide more secure connections to virtual networks.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 85

Refer to the exhibit. Which code snippet is required in the headers to successfully authorize wireless information from Cisco DNA Center?

- A. headers = {'Authorization': 'Bearer ASDNFALKJER23412RKDALSNKF'}
- B. headers = {'Content-type': 'application/json'}
- C. headers = {'X-auth-token': 'fa8426a0-8eaf-4d22-8e13-7c1b16a9370c'}
- D. headers = {'Authorization': 'Basic YWRtaW46R3JhcGV2aW5IMQ=='}

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 86

DRAG DROP

Refer to the exhibit. Python threading allows a developer to have different parts of a program run concurrently and simplify a design. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to create a thread instance.

Select and Place:

Answer:

Section: Cisco Platforms

NEW QUESTION: 87

Refer to the exhibit. What is the output of this IOS-XE configuration program?

- A. interface operational status in IPv6 addresses
- B. interface administrative status in IPv4 addresses
- C. interface operational status in IPv4 addresses
- D. interface administrative status in IPv6 addresses

Answer: ([SHOW ANSWER](#))

Section: Infrastructure and Automation

Explanation/Reference:

NEW QUESTION: 88

Refer to the exhibit.

Two editors are concurrently updating an article's headline from their mobile devices. What results from this scenario based on this REST API sequence?

- A. The article headline is "Monday Headlines"
- B. The article headline is "Top Headlines"
- C. The article headline is "Today Headlines"
- D. The article is marked as "Conflicted"

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 89

Refer to the exhibit. The self-service Webex Teams bot is failing when many users attempt to interact with it at the same time. Drag and drop the code snippets from the left onto the correct item numbers on the right that match the missing sections in the exhibit to complete this code to handle this high-load situation.

Answer:

NEW QUESTION: 90

Which database type should be used with highly structured data and provides support for ACID transactions?

- A. time series
- B. document
- C. graph
- D. relational

Answer: ([SHOW ANSWER](#))

Section: Software Development and Design

Explanation

NEW QUESTION: 91

Refer to the exhibit. The self-service Webex Teams bot is failing when many users attempt to interact with it at the same time. Drag and drop the code snippets from the left onto the correct item numbers on the right that match the missing sections in the exhibit to complete this code to handle this high-load situation.

NEW QUESTION: 92

Drag and drop the steps from the left into the correct sequence on the right to describe how to use Git to maintain the current HEAD and revert back to a previous commit, while undoing all intermediate commits.

Answer:

NEW QUESTION: 93

User report that they can no longer process transactions with the online ordering application, and the logging dashboard is displaying these messages.

Fri Jan 10 19:37:31.123 EST 2020 [FRONTEND] INFO: Incoming request to add item to cart from user

45834534858

Fri Jan 10 19:37:31 247 EST 2020 [BACKEND] INFO: Attempting to add item to cart Fri Jan 10

19:37:31 250 EST 2020 [BACKEND] ERROR: Failed to add item: MYSQLDB ERROR:

Connection refused

What is causing the problem seen in these log messages?

- A. The backend is not authorized to commit to the database.
- B. The database server container has crashed.
- C. The user is not authorized to add the item to their cart.
- D. The backend process is overwhelmed with too many transactions.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 94

FILL BLANK

Fill in the blanks to complete the Python script to enable the SSID with a name of "371767916" in the network resource "11111111" using the Meraki Dashboard API.

Answer:

See explanation below

Explanation

1. 371767916

2.'PUT'

3.payload

NEW QUESTION: 95

How is client code that consumes gRPC telemetry implemented, assuming that the preferred language is able to be chosen?

- A. Parse the OpenAPI spec model
- B. Review the Swagger API documentation to build client code
- C. Compile the protocol buffers IDL
- D. Leverage a Thrift code generator to parse a Thrift IDL

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 96

Refer to the exhibit.

Which two functions are performed by the load balancer when it handles traffic originating from the Internet destined to an application hosted on the file server farm? (Choose two.)

- A. Terminate the TLS over the SCTP connection from the router and originate an HTTPS connection to the selected server.
- B. Terminate the TLS over the TCP connection from the router and originate an HTTPS connection to the selected server.
- C. Terminate the TLS over the UDP connection from the router and originate an HTTP connection to the selected server.
- D. Terminate the TLS over the UDP connection from the router and originate an HTTPS connection to the selected server.
- E. Terminate the TLS over the TCP connection from the router and originate an HTTP connection to the selected server.

Answer: B,E ([LEAVE A REPLY](#))

NEW QUESTION: 97

Refer to the exhibit.

What is the output of this IOS-XE configuration program?

- A. interface operational status in IPv4 addresses
- B. interface administrative status in IPv4 addresses
- C. interface operational status in IPv6 addresses
- D. interface administrative status in IPv6 addresses

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 98

Which two actions must be taken when an observable microservice application is developed? (Choose two.)

- A. Deploy microservice to multiple datacenters.
- B. Place "try/except" statement in code.
- C. Place log statements in the code.
- D. Use distributed tracing techniques.
- E. Know the state of a single instance of a single service.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 99

Drag and drop the code onto the snippet to update a SSID in Meraki using the Dashboard API. Not all options are used.

Answer:

NEW QUESTION: 100

Which two methods are API security best practices? (Choose two.)

- A. Use tokens after the identity of a client has been established.
- B. Use the same operating system throughout the infrastructure.
- C. Use encryption and signatures to secure data.
- D. Use basic auth credentials over all internal API interactions.
- E. Use cloud hosting services to manage security configuration.

Answer: A,C ([LEAVE A REPLY](#))

Section: Using APIs

NEW QUESTION: 101

A bot has been created, called "386231131", to respond to alarm messages. A developer is now creating a Webhook to allow the bot to respond to messages.

Which format allows the Webhook to respond to messages for the bot within Webex Teams?

- A.
- B.
- C.
- D.

Answer: ([SHOW ANSWER](#))

<https://developer.webex.com/docs/bots>

NEW QUESTION: 102

Refer to the exhibit.

The Python script is supposed to make an API call to Cisco DNA Center querying a wireless profile for the

"ChicagoCampus" and then parsing out its enable FlexConnect value. Drag and drop the parts of the Python code from the left onto the item numbers on the right that match the missing sections in the exhibit.

Answer:

NEW QUESTION: 103

Refer to the exhibit.

Drag and drop the parts of the Python code from the left onto the item numbers on the right that match the missing sections in the exhibit that consumes REST API pagination.

Answer:

NEW QUESTION: 104

Refer to the exhibit.

An Intersight API is being used to query RackUnit resources that have a tag keyword set to "Site". What is the expected output of this command?

- A. list of all sites that contain RackUnit tagged compute resources
- B. error message because the tag filter should be lowercase
- C. list of all resources that have a tag with the keyword "Site"
- D. error message because the Value field was not specified

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 105

Drag and drop the code from the bottom onto the box where the code is missing to retrieve and display wireless network health information. The wireless network devices are being managed by Cisco DNA Center and are compatible with REST API Not all options are used.

Answer:

NEW QUESTION: 106

Refer to the exhibit above and click on the IETF Routing tab in the top left corner to help with this question. A developer is trying to update the routing instance by adding a new route to the routes list using the URL in the exhibit. What action must be taken to fix the error being received?

- A. Change the URL to "/ietf-routing:routing-instance/default".
- B. Change the HTTP Method being used to make the change
- C. Change the url to "/ietf-routing:routing/routing-instance=default".
- D. Update the authorization credentials.
- E. Fix the body being sent to update the routes list.

NEW QUESTION: 107

An application is being built to collect and display telemetry streaming data. Drag and drop the elements of this stack from the left onto the correct element functions on the right.

Answer:

NEW QUESTION: 108

Refer to the exhibit.

What is the output of this IOS-XE configuration program?

- A. interface administrative status in IPv4 addresses
- B. interface operational status in IPv6 addresses
- C. interface administrative status in IPv6 addresses
- D. interface operational status in IPv4 addresses

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 109

Refer to the exhibit above and click on the tab in the top left corner to view a diagram that describes the typical flow of requests involved when a webhook is created for a booking service. Drag and drop the requests from the left onto the item numbers on the right that match the missing sections in the sequence diagram to design the complete flow of requests involved as a booking is updated from a web application.

Answer:

NEW QUESTION: 110

What is an effective logging strategy according to the 12-factor app tenets?

- A. Capture logs by the execution environment and route to a centralized destination
- B. Back up log files in a high-availability remote cluster on the public cloud
- C. Tag and save logs in a local document database that has querying capabilities.
- D. Timestamp and save logs in a local time-series database that has querying capabilities

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 111

Drag and Drop Question

Refer to the exhibit. Drag and drop the code snippets from the left onto the item numbers on the right that match the missing sections in the exhibit to complete the script to implement control flow.

Answer:

NEW QUESTION: 112

Refer to the exhibit. An engineer needs to change the IP address via RESTCONF on interface GigabitEthernet2. An error message is received when the script is run.

Which amendment to the code will result in a successful RESTCONF action?

- A. Change POST to PATCH
- B. Issue a DELETE before POST
- C. Issue a DELETE before PATCH
- D. Change POST to GET

Answer: ([SHOW ANSWER](#))
