NEW QUESTION: 1

What customization options are available for self-service catalog items in Morpheus?
(Select two.)

Response:

- A. Restricting users from modifying instance settings
- B. Custom inputs for user-defined provisioning parameters
- C. Integration with automation workflows
- D. Enforcing manual approvals for all deployments

Answer: (SHOW ANSWER)

NEW QUESTION: 2

What types of policy controls are available in Morpheus?
(Select two.)

Response:

- A. Network isolation policies
- B. Manual user role assignment
- C. API security policies
- D. Resource quotas and limits

Answer: (SHOW ANSWER)

NEW QUESTION: 3

How can administrators configure Morpheus post-installation?

Response:

- A. Through third-party integration tools only
- B. By using CLI commands exclusively
- C. Only by modifying local configuration files
- D. Through the Morpheus web interface and API

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 4

Which of the following is a valid input type in Morpheus?

Response:

- A. Encrypted field
- B. Cloud provider restriction
- C. Static volume size
- D. Fixed network IP assignment

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 5

How can Morpheus workflows be automated using Git repositories?

(Select two.)

Response:

- A. Disabling direct API access to repositories
- B. Using Git commits to trigger deployment updates
- C. Limiting workflow execution to administrator roles
- D. Synchronizing repository changes with Morpheus automation scripts

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 6

What functions do Infrastructure Groups serve in Morpheus?

(Select two.)

Response:

- A. Restricting tenant-based resource access
- B. Isolating resources based on cloud providers
- C. Logical grouping of resources for better organization
- D. Manually allocating resource quotas for all groups

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 7

How does Morpheus handle public cloud service plans differently from private cloud service plans?

Response:

- A. Public cloud service plans use predefined instance sizes, while private cloud plans allow custom configurations
- B. Private cloud service plans are locked to a single provider
- C. Private cloud service plans cannot be customized
- D. Public cloud service plans require manual instance provisioning

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 8

In which scenario would a single-tenant model be preferred over a multi-tenant model?

Response:

- A. When multiple organizations need to share cloud resources
- B. When optimizing infrastructure for cost efficiency
- C. When enforcing user access policies across multiple teams
- D. When an organization requires strict data and security isolation

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 9

How does Morpheus improve DevOps efficiency?

Response:

- A. By automating Infrastructure as Code (IaC) deployments
- B. By limiting CI/CD pipeline integration
- C. By enforcing manual change management processes
- D. By requiring direct access to all cloud resources

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 10

- A. Reducing administrative overhead by automating access control
- B. Improved security by restricting access based on roles
- C. Preventing unauthorized users from executing restricted actions
- D. Enforcing standardized permissions for all users

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 11

What is a key function of custom roles in Morpheus?

Response:

- A. Allowing unrestricted access to all resources
- B. Enforcing fixed, non-modifiable permissions
- C. Limiting role assignments to predefined system roles
- D. Assigning specific permissions based on business needs

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 12

How do Morpheus File Templates assist in automation?

Response:

- A. By enforcing manual file modifications
- B. By enabling dynamic configuration files for deployments
- C. By restricting access to Terraform scripts

D. By eliminating workflow automation

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 13

What is a key prerequisite for installing Morpheus on an on-premises environment?

Response:

- A. Virtual or physical infrastructure that meets the minimum system requirements
- B. Full manual setup without automation support
- C. A dedicated physical server with a minimum of 1TB RAM
- D. Exclusive reliance on cloud-based storage

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

What is the primary purpose of Morpheus Service Plans?

Response:

- A. To eliminate the need for cloud-based deployments
- B. To enforce static workload allocations
- C. To define resource limits and instance configurations for provisioning
- D. To prevent users from modifying instance sizes

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 15

What are the benefits of integrating GitHub with Morpheus?

(Select two.)

Response:

- A. Restricting automation to pre-built templates only
- B. Enabling Infrastructure as Code (IaC) automation
- C. Disabling manual configuration options
- D. Ensuring version-controlled configuration management

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 16

What are the benefits of using service plans in Morpheus?

(Select two.)

Response:

- A. Disabling API-based provisioning requests
- B. Automating scaling policies for cloud deployments
- C. Preventing the use of Infrastructure as Code (IaC) tools
- D. Ensuring consistent resource allocation across instances

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 17

What are fundamental provisioning concepts in Morpheus?

(Select two.)

Response:

- A. Static network assignments only
- B. Instances as deployable workloads
- C. Layouts for defining resource configurations
- D. Eliminating the need for cloud APIs

Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 18

What is a key security consideration when configuring tenants in Morpheus?

Response:

- A. Limiting tenant access to only cloud-based environments
- B. Disabling user authentication for tenant users
- C. Granting unrestricted access to all tenants by default
- D. Implementing RBAC and access control policies for tenant users

Answer: (SHOW ANSWER)

NEW QUESTION: 19

What is the primary purpose of Morpheus' built-in logging and monitoring capabilities?

Response:

- A. To automate cloud provider updates
- B. To disable real-time monitoring for performance optimization
- C. To restrict log access to administrators only
- D. To track infrastructure performance and detect issues proactively

Answer: (SHOW ANSWER)

NEW QUESTION: 20

- A. Configuring role-based access control (RBAC)
- B. Setting up integration with cloud providers
- C. Disabling built-in security features

D. Limiting API access for automation

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 21

What IT challenges does Morpheus help address?

(Select two.)

Response:

A. Managing multi-cloud and hybrid IT environments

B. Limiting support for DevOps practices

C. Reducing reliance on automation tools

D. Optimizing infrastructure costs

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 22

What are the benefits of Morpheus' built-in monitoring capabilities?

(Select two.)

Response:

A. Disabling logging to improve performance

B. Restricting monitoring to administrator-level users only

C. Real-time alerting on infrastructure and application health

D. Automated remediation workflows based on monitoring data

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

How are users assigned roles in Morpheus?

Response:

A. By requiring MFA for role assignment

B. Through manual assignment by an administrator

C. By allowing self-assignment of roles

D. By defaulting all users to Tenant Admin

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

What is a benefit of using self-service catalog items?

Response:

A. Preventing automation of cloud deployments

B. Eliminating user role restrictions

C. Restricting service requests to a single user role

D. Reducing the need for manual infrastructure provisioning

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 25

How does Morpheus help organizations optimize IT costs?

(Select two.)

Response:

- A. Requires manual cost reporting
- B. Limits the use of public cloud resources
- C. Implements automated workload scaling
- D. Provides visibility into cloud spending and utilization

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 26

How do Morpheus Blueprints enhance automation?

Response:

- A. By allowing integration with external Infrastructure as Code (IaC) tools
- B. By requiring manual approval for all deployments
- C. By enforcing static configurations only
- D. By eliminating the need for manual provisioning

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 27

What are key benefits of policies in Morpheus?

(Select two.)

Response:

- A. Disabling automation in all cloud deployments
- B. Enforcing security and compliance across environments
- C. Automating resource allocation and cost controls
- D. Restricting access to infrastructure monitoring tools

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 28

What are the supported deployment models for Morpheus?

Response:

- A. On-premises, cloud-based, or hybrid deployment
- B. Cloud-only deployment
- C. Local workstation installation only
- D. Embedded within legacy infrastructure

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 29

Which role type in Morpheus has the highest level of administrative control?

Response:

- A. Cloud Operator
- B. Tenant Admin
- C. Read-Only User
- D. Instance User

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 30

- A. Direct hardware installation without virtualization
- B. Cloud-based SaaS deployment
- C. On-premises virtual appliance deployment
- D. Installation on personal workstations

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 31

What must be configured when creating a new policy in Morpheus?

Response:

- A. User passwords and security groups
- B. Role-based access restrictions only
- C. Policy type, scope, and enforcement rules
- D. Manual system override settings

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 32

How can custom inputs be used in Morpheus?

Response:

- A. To provide user-defined values for provisioning instances
- B. To restrict workflow execution to specific users
- C. To replace all default configurations with static inputs
- D. To override system-level policies

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

What are common use cases for self-service catalog items in Morpheus?

(Select two.)

Response:

- A. Preventing users from deploying new instances
- B. Rapid provisioning of virtual machines and applications
- C. Automating IT service requests
- D. Limiting configuration options for administrators only

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 34

What is the primary role of Infrastructure Groups in Morpheus?

Response:

- A. To replace traditional network segmentation
- B. To isolate specific workloads within a single environment
- C. To allow multiple teams to share a common cloud infrastructure securely
- D. To enforce application deployment restrictions

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 35

What are use cases for virtual images in Morpheus?

(Select two.)

Response:

- A. Creating repeatable OS templates
- B. Automating security patch deployments
- C. Restricting instance scaling
- D. Reducing provisioning time for new workloads

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 36

What is the recommended approach to applying Morpheus updates?

Response:

- A. Manually patching each node individually
- B. Testing updates in a staging environment before deployment
- C. Applying updates directly in the production environment
- D. Disabling automatic updates for security reasons

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 37

What is the role of Monitoring Groups in Morpheus?

Response:

- A. To prevent users from modifying monitoring configurations

- B. To enforce static resource assignments for monitoring
- C. To categorize monitored resources and apply consistent monitoring policies
- D. To restrict alerting to a single cloud region

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 38

How does Morpheus help IT teams address operational challenges?

Response:

- A. By limiting integration with public cloud providers
- B. By automating provisioning, governance, and cost management
- C. By enforcing fixed hardware configurations
- D. By requiring manual workload scaling

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 39

What is the primary purpose of self-service catalog items in Morpheus?

Response:

- A. To allow users to request and provision pre-configured applications and services
- B. To limit the use of Infrastructure as Code (IaC) workflows
- C. To restrict provisioning to administrators only
- D. To automate cloud infrastructure upgrades

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 40

- A. Manual workload balancing
- B. Centralized orchestration and policy enforcement
- C. Exclusive reliance on on-premises hardware
- D. Support for single-cloud-only deployment models

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 41

In what scenarios are custom inputs useful in Morpheus?

(Select two.)

Response:

- A. Limiting deployment configurations to a single cloud provider
- B. Automating workload scaling based on user-defined thresholds
- C. Blocking all changes to predefined instance templates
- D. Provisioning dynamic virtual machines based on user selections

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 42

Which of the following is a type of Morpheus Blueprint?

Response:

- A. Terraform Blueprint
- B. Static YAML Blueprint
- C. Database Configuration Blueprint
- D. Kubernetes-Only Blueprint

Answer: ([SHOW ANSWER](#))
