NEW QUESTION: 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From a team, you add a tab for the Sales site.

Does this meet the goal?

- A. Yes
- B. No

Answer: (SHOW ANSWER)

<https://support.office.com/en-us/article/Create-a-Microsoft-Team-from-SharePoint-545973b6-c38f-426a-b2b6-16405a561628>

NEW QUESTION: 2

Your company has three divisions. Each division has a Microsoft 365 E5 subscription and its own Microsoft Entra ID instance. All the divisions use Teams for collaboration and communication.

You need to recommend a seamless collaboration solution between all the divisions. The solution must support the following:

- * Search for users
- * Free/busy status for Teams meetings
- * Collaboration on files stored in Teams

What should you include in the recommendation?

- A. guest access
- B. shared channels
- C. external access
- D. a multitenant organization

Answer: (SHOW ANSWER)

NEW QUESTION: 3

Your company has 200 users.

You plan to upgrade all the users from Microsoft Skype for Business Online to Microsoft Teams. Enterprise Voice must be enabled for all users.

You need to recommend a coexistence mode for the Microsoft Teams upgrade policy.

Which mode should you recommend?

- A.** Skype for Business with Teams collaboration
- B.** Islands
- C.** Teams only
- D.** Skype for Business with Teams collaboration and meetings

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/setting-your-coexistence-and-upgrade-settings>

NEW QUESTION: 4

You have a Microsoft 365 E5 subscription and use Microsoft Teams.

You plan to support meetings that use breakout rooms.

You need to recommend a breakout room solution that meets the following requirements:

- * Supports 500 participants
- * Supports content sharing and chat

What should you include in the recommendation?

- A.** live events
- B.** webinars
- C.** meetings
- D.** town halls

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 5

You have a Microsoft 365 subscription that uses Microsoft Teams to collaborate with guest users.

You need to use monthly active users (MAU) billing and access reviews to monitor the team membership of the guest users.

Which additional licenses should you assign, and what should you do to enable MAU billing? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Additional licenses:

To enable MAU billing:

Microsoft

Answer:

Answer Area

Additional licenses:

To enable MAU billing:

Microsoft

Explanation:

Answer Area

Additional licenses:

To enable MAU billing:

NEW QUESTION: 6

Your company has a Microsoft 365 subscription.

You need to ensure that users from a partner company named Contoso, Ltd. can collaborate with your company's users in teams. The solution must ensure that the Contoso users can exchange chat messages in channels.

Which three actions should you perform before you add the Contoso users to teams? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** From the Services & add-ins settings in the Microsoft 365 admin center, set Let group members outside the organization access group content to On.
- B.** From the Guest access settings in the Microsoft Teams admin center, set Allow guest access in Microsoft Teams to On.
- C.** From the External collaboration settings in the Azure Active Directory admin center, add Contoso's domain to the list of target domains.
- D.** From the External access settings in the Microsoft Teams admin center, add Contoso's domain to the Allowed list of domains.
- E.** From the External collaboration settings in the Azure Active Directory admin center, set Guest users permissions are limited to No.
- F.** From the Services & add-ins settings in the Microsoft 365 admin center, set Let group owners add people outside the organization to groups to On.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 7

You company has a Microsoft Office 365 subscription.

Users in the company's sales department frequently invite guest users to meetings.

You need to ensure that when the sales department users invite guest users to meetings, the guest users are admitted by default. The solution must only apply to the sales department users.

Which two actions should you perform? Each correct solution presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** In the global meeting policy, set Automatically admit users to Everyone.
- B.** Create a new meeting policy and set Automatically admit users to Everyone.
- C.** Apply the policy to the sales department users.
- D.** In the global meeting policy, set Automatically admit users to Everyone in your organization.

Answer: B,C ([LEAVE A REPLY](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/meeting-policies-in-teams>

NEW QUESTION: 8

You have a Microsoft 365 E5 subscription that has Phone System enabled for all Microsoft Teams users.

You need to configure the Phone System to meet the following requirements:

Provide a virtual receptionist that connects callers to either a specific user or the help desk.

Route calls to the help desk on a First in, First out (FIFO) order.

Which two resources should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** a call park policy
- B.** a call queue
- C.** a voice routing policy
- D.** a group call pickup
- E.** an auto attendant

F. a calling policy

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-call-queue>

<https://docs.microsoft.com/en-us/microsoftteams/plan-auto-attendant-call-queue>

NEW QUESTION: 9

Task 8

You need to enable shared channel collaboration with microsoft.com . The solution must meet the following requirements:

- * Users must be able to participate in shared channels created by microsoft.com .
- * Users must be able to invite Microsoft contacts to shared channels created by users at your company.

Answer:

See the solution in the explanation below:

Explanation:

To enable shared channel collaboration with microsoft.com, you need to use the Teams admin center to configure the channel policy and the cross-tenant access settings. Here are the steps to follow:

- * Sign in to the Teams admin center with your Microsoft 365 username and password 1 .
- * In the left navigation, go to Teams > Teams update policies.
- * Select an existing policy or create a new one by clicking Add.
- * In the Update policy pane, under Shared channels, turn on the toggles for Allow shared channel creation and Allow external shared channel participation. This will allow users to create shared channels and participate in shared channels created by microsoft.com.
- * Click Save and then Close.
- * In the left navigation, go to Org-wide settings > External access.
- * Under Cross-tenant access settings, click Manage settings.
- * In the Cross-tenant access settings pane, under Shared channels, select Allow specific domains and then enter microsoft.com in the box below. This will allow users to invite Microsoft contacts to shared channels created by your company.
- * Click Save.

Note: You also need to make sure that microsoft.com has configured their cross-tenant access settings to allow shared channel collaboration with your domain. See Collaborate with external participants in a channel

2 for more details.

NEW QUESTION: 10

You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

- A. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to Skype for Business with Teams collaboration and meetings coexistence mode.
- B. From PowerShell, run the Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollab cmdlet.
- C. From PowerShell, run the Grant-CsTeamsUpgradePolicy -PolicyName Islands cmdlet.
- D. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to Skype for Business coexistence mode.

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-and-skypeforbusiness-coexistence-andinteroperability>

NEW QUESTION: 11

Your company plans to upgrade to Microsoft Teams from Microsoft Skype for Business Online. The org-wide coexistence mode for Microsoft Teams is set to Teams Only. The company has a user named User1.

You need to implement a migration solution that meets the following requirements:

- * User 1 must be able to chat and create meetings by using Skype for Business only.
- * User 1 must be able to read and post messages by using Microsoft Teams channels.

How should you complete the PowerShell command? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Grant-CsClientPolicy
Grant-CsTeamsUpgradePolicy
Move-CsLegacyUser

-PolicyName Islands
SfBOnly
SfBWithTeamsCollab
SfBWithTeamsCollabAndMeetings
UpgradeToTeams

-Identity User1
All

Answer:

Grant-CsClientPolicy
Grant-CsTeamsUpgradePolicy
Move-CsLegacyUser

-PolicyName Islands
SfBOnly
SfBWithTeamsCollab
SfBWithTeamsCollabAndMeetings
UpgradeToTeams

-Identity User1
All

Explanation:

Answer Area

Grant-CsTeamsUpgradePolicy -PolicyName SfBWithTeamsCollab

-Identity User1

NEW QUESTION: 12

Your company has a Microsoft 365 subscription.

The company has a main office in Chicago.

The company opens a new office in Toronto that has 500 users.

You need to ensure that the correct address is available to emergency responders.

What should you do?

- A. Create a configuration profile and assign the profile to the device of each user.
- B. Add an emergency address, and then modify each phone number.
- C. Add an emergency address, and then modify each user.
- D. Create a calling policy and assign the policy to each user.

Answer: (SHOW ANSWER)

<https://docs.microsoft.com/en-us/microsoftteams/assign-change-emergency-location-user>

NEW QUESTION: 13

Your company has a Microsoft 365 E5 subscription.

You need to configure Microsoft Teams to meet the following requirements:

- * All new teams must include the Wiki app and the Planner app.
- * Users in specific groups must be prevented from creating private channels.
- * Only users in the company's IT department must have early access to the unreleased features of Microsoft Teams.

What should you configure for each requirement? To answer, drag the appropriate settings to the correct requirements. Each setting may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 14

Your company has a Microsoft 365 subscription that contains a team named Sales.

You need to recommend a solution to ensure that all guest users who are members of Sales receive an email message each year to verify that they want to remain in the team.

What should you include in the recommendation?

A. an identity provider

B. an access review

C. a Microsoft Outlook add-in

D. a supervision policy

Answer: (SHOW ANSWER)

NEW QUESTION: 15

Your company has offices in New York and Seattle.

You have a Microsoft 365 subscription that uses Teams.

You plan to assess network connectivity and make recommendations to optimize connectivity from each office to Teams.

You run the Microsoft 365 network connectivity test tool at both offices and produce the results shown in the following table.

Office	Setting	Result
New York	Your distance from the network egress location	>500 miles (800 km)
	Virtual private network (VPN) you use to connect to your organization	Detected
	VPN Split Tunnel	Microsoft Teams Optimize is selective tunneled
	Latency	250 ms
Seattle	Your distance from the network egress location	<3 miles (5 km)
	Virtual private network (VPN) you use to connect to your organization	Not detected
	Latency	75 ms

For each of the following statements, select Yes if True. Otherwise select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
VPN split tunneling must be implemented in the New York office.	☐	☐
Deploying a VPN connection to the Seattle office will improve the latency results for Teams.	☐	☐
A local internet breakout must be implemented in the New York office to improve connectivity to Teams.	☐	☐

Answer:

Answer Area

Statements

VPN split tunneling must be implemented in the New York office.

Yes

☒

No

☐

Deploying a VPN connection to the Seattle office will improve the latency results for Teams.

☐☒

A local internet breakout must be implemented in the New York office to improve connectivity to Teams.

☒☐

Explanation:

Answer Area

VPN split tunneling must be implemented in the New York office.

Yes

☒

No

☐

Deploying a VPN connection to the Seattle office will improve the latency results for Teams.

☐☒

A local internet breakout must be implemented in the New York office to improve connectivity to Teams.

☒☐

NEW QUESTION: 16

You have a Microsoft 365 E3 subscription.

You have a conference room that contains a Teams Rooms device named Device1. Device1 is assigned a Teams Rooms Basic license.

You need to ensure that you can restart Device1 from a remote location.

What should you do?

- A. Assign Device1 a Teams Rooms Pro license.
- B. Assign Device1 a Microsoft 365 E5 license.
- C. Join Device1 to Microsoft Entra.
- D. Enroll Device1 in Microsoft Intune.

NEW QUESTION: 20

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription and a Virtual Desktop Infrastructure (VDI) solution.

The company's Microsoft Teams upgrade policy is set to Teams only coexistence mode.

You deploy the Microsoft Installer (MSI) package for Microsoft Teams to the VDI solution.

Several months later, users of the VDI solution report that their workstation is missing several new Microsoft Teams features.

You need to ensure that the VDI solution users can use the new Microsoft Teams features.

Solution: You run the Grant-CsTeamsUpgradePolicy cmdlet and specify the -PolicyName parameter.

Does this meet the goal?

- A. Yes
- B. No

Answer: (SHOW ANSWER)

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-client-update>

<https://docs.microsoft.com/en-us/microsoftteams/teams-for-vdi#install-teams-on-vdi>

NEW QUESTION: 21

You have a Microsoft 365 E5 subscription that uses Teams.

When you attempt to create a new sensitivity label for Teams, you discover that the Groups & sites option is unavailable as shown in the following exhibit.

Define the scope for this label

Labels can be applied directly to files, emails, containers like SharePoint sites and Teams, schematized data assets, and more. Let us know where you want this label to be used so you can configure the applicable protection settings. Learn more about label scopes

☒ Files & emails

Configure encryption and content marking settings to protect labeled emails and Office files. Also define auto-labeling conditions to automatically apply the label to sensitive content in Office, files in Azure, and more.

☐ Groups & sites

Configure privacy, access control, and other settings to protect labeled Teams, Microsoft 365 Groups, and SharePoint sites.

 To apply sensitivity labels to Teams, SharePoint sites, and Microsoft 365 Groups, you must first complete these steps to enable the feature.

☐ Schematized data assets (preview)

Apply labels to files and schematized data assets in Microsoft Purview Data Map. Schematized data assets include SQL, Azure SQL, Azure Synapse, Azure Cosmos, AWS RDS, and more.

 To apply this label to schematized data assets, you must first turn on labeling for Microsoft Purview Data Map. You can do this from the Labels page. Learn more about labeling for Microsoft Purview Data Map.

You need to be able to select Groups & sites when you create the sensitivity label.

Which cmdlet should you run?

- A. Set - SPOSiteoffice365Group
- B. Set-CsTeamsEnhancedEncryptionPolicy
- C. Set-AzureADDirectorySetting
- D. Set-Uni-fiedGroup

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 22

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From Microsoft Teams admin center, you modify the External collaboration settings.

Does this meet the goal?

- A. Yes
- B. No

Answer: ([SHOW ANSWER](#)**)**

<https://docs.microsoft.com/en-us/microsoftteams/set-up-guests>

NEW QUESTION: 23

You need to implement the planned changes for the marketing department.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** From the Azure Active Directory admin center, configure the B2B direct connect inbound access settings for external users and groups.
- B.** From the Azure Active Directory admin center, configure the B2B direct connect outbound access settings for external users and groups.
- C.** Set Join external shared channels to On for the Teams policy of the marketing department.
- D.** Set invite external users to shared channels to On for the Teams policy of the marketing department.
- E.** Set invite external users to shared channels to On for the Global (Org-wide default) Teams policy.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

Your company uses Teams.

You successfully port and assign an audio conferencing toll-free number to Microsoft.

You test the toll-free number and ensure that meetings are successful.

The next day, you receive reports that the toll-free number is no longer working, but local toll numbers still work.

You need to ensure that the toll-free number works.

What should you do?

- A.** Add the toll-free number to an Audio Conferencing policy.
- B.** Set Anonymous users and dial-in callers can start a meeting to On
- C.** Add Communication Credits.
- D.** Set the toll-free number as the default conference bridge.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 25

You have a Microsoft 365 subscription that uses Microsoft Teams.

You plan to deploy collaboration bars for Microsoft Teams.

You need to manage built-in software and firmware updates for the collaboration bars. The solution must use the principle of least privilege.

Which updates can be applied automatically, and which role is required to perform manual updates for the collaboration bars? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Updates that can be applied automatically:

Role required to perform manual updates:

Answer:

NEW QUESTION: 26

Task 12

you need to create a Microsoft 365 group named TeamsAdmin that can manage Teams Phone configurations without being able to manage teams and channels.

Answer:

See the solution in the explanation below:

Explanation:

To create a Microsoft 365 group named TeamsAdmin that can manage Teams Phone configurations without being able to manage teams and channels, you need to use PowerShell to create the group and assign the Teams Communications Administrator role to it. Here are the steps to follow:

Install the Azure Active Directory PowerShell for Graph module by running the following cmdlet:

```
Install-Module -Name AzureAD
```

Connect to Azure Active Directory by running the following cmdlet and entering your Microsoft 365 username and password:

```
Connect-AzureAD
```

Create a new Microsoft 365 group named TeamsAdmin by running the following cmdlet:

```
New-AzureADMSGroup -DisplayName "TeamsAdmin" -Description "Group for managing Teams Phone configurations" -MailEnabled $false -MailNickName "TeamsAdmin" -SecurityEnabled $true -GroupTypes "Unified"
```

Get the object ID of the new group by running the following cmdlet:

```
Get-AzureADMSGroup -Filter "DisplayName eq 'TeamsAdmin'"
```

Copy the object ID from the output and assign it to a variable, such as \$groupId, by running the following cmdlet:

```
$groupId = "your-object-id"
```

Install the Microsoft Teams PowerShell module by running the following cmdlet:

```
Install-Module -Name MicrosoftTeams
```

Connect to Microsoft Teams by running the following cmdlet and entering your Microsoft 365 username and password:

```
Connect-MicrosoftTeams
```

Get the role ID of the Teams Communications Administrator role by running the following cmdlet:

```
Get-CsOnlineRole -Identity "Teams Communications Administrator"
```

Copy the role ID from the output and assign it to a variable, such as \$roleId, by running the following cmdlet:

```
$roleId = "your-role-id"
```

Assign the Teams Communications Administrator role to the TeamsAdmin group by running the following cmdlet:

```
New-CsOnlineRoleAssignment -SecurityGroupId $groupId -RoleDefinitionName $roleId
```

Now, you have created a Microsoft 365 group named TeamsAdmin that can manage Teams Phone configurations without being able to manage teams and channels. You can add members to this group by using the Azure Active Directory admin center or PowerShell.

NEW QUESTION: 27

You have an org wide team named Team1.

The members of Team1 report that they receive an excessive amount of notifications from channel messages.

You need to reduce the amount of notifications by implementing the following changes:

- * Allow only global administrators to create new posts in the General channel.
- * Prevent @members for the org-wide team members.

Which two actions should you perform from the Microsoft Teams client? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** From the Team1 settings, clear Give members the option to edit their messages.
- B.** From the General Channel settings of Team1, set the channel moderation preference to Anyone can post; show alert that postings will notify everyone (recommended for large teams).
- C.** From the General Channel settings of Team1, set the channel moderation preference to Only owners can post messages.

D. From the Team1 settings, disable all the Fun stuff settings.

E. From the Team1 settings, set Show members the option to @team or @[team name] to Off.

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-an-org-wide-team>

NEW QUESTION: 28

You need to implement a solution to meet the Microsoft Teams requirements for the compliance department.

What should you do first?

A. Add all the compliance department users as members of an org-wide team.

B. Add all the compliance department users to a universal security group.

C. Add all the compliance department users to an Office 365 group.

D. Assign the Teams Communications Support Engineer role to all the compliance department users.

Answer: ([SHOW ANSWER](#))

<https://docs.microsoft.com/en-us/microsoft-365/admin/create-groups/compare-groups?view=o365-worldwide>

NEW QUESTION: 29

Task 5

You need to ensure that content on Microsoft SharePoint Online sites can be shared only with new and existing guest users.

Answer:

See the solution in the explanation below:

Explanation:

To ensure that content on Microsoft SharePoint Online sites can be shared only with new and existing guest users, you need to limit the external sharing settings in the SharePoint admin center. Here are the steps to follow:

* Sign in to the SharePoint admin center with your admin credentials.

* Go to Policies > Sharing.

* Under External sharing, drag the SharePoint slider down to New and existing guests. (The OneDrive slider is dependent on SharePoint and will also be set to New and existing guests.)

* Under More external sharing settings, check the box Allow only users in specific security groups to share externally and select Manage security groups.

* Add the security groups that contain the users who are allowed to share content with guest users. You can also create a new security group if needed.

* Click Save to apply the settings.

NEW QUESTION: 30

Your company has a Microsoft 365 tenant that uses Microsoft Skype for Business Online.

All users connect to Skype for Business Online by using computers that run Windows 10.

You plan to upgrade all the users from Skype for Business Online to Microsoft Teams.

You need to ensure that the Microsoft Teams client is installed automatically on all the computers.

What should you do from the Teams admin center?

A. From the Messaging policies settings, modify the Global (Org-wide default) messaging policy.

B. From Teams apps, add an App setup policy.

C. From Org-wide settings, configure the Teams upgrade settings.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 31

Your company uses Teams.

You have the following teams:

- * Accounting

- * Project Management

- * Information Technology

You plan to create new channels.

Answer:

NEW QUESTION: 33

You have a Microsoft 365 subscription.
In Microsoft Teams, you create a new private team named Team1 and add a user named User1 as a member.
Used attempts to add members to Team1 and reports that approval is required. You need to ensure that User1 can add members to Team1 without requiring approval. What should you do?

- A. Configure User1 as an owner of Team1.
- B. Configure a new Microsoft Teams policy.
- C. Assign the Teams Communications Support Specialist role to User1.
- D. Configure guest access.

Answer: (SHOW ANSWER)

NEW QUESTION: 34

Your company uses Microsoft Teams.
You are planning the compliance strategy for Microsoft Teams. All compliance tasks must be performed by a user in the compliance department who will be assigned the Global admin role and will not be a team owner.

You need to identify which tools to use for the following tasks:

- *Archive a team.
- *Restore a deleted team.
- *Permanently delete a team.

Which tool should you identify for each task? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools

The Microsoft Teams admin center

The Azure Active Directory admin center

The Microsoft Teams desktop client

Administration tasks

Restore a deleted team: Tool

Archive a team: Tool

Permanently delete a team: Tool

Answer:

Tools

The Microsoft Teams admin center

The Azure Active Directory admin center

The Microsoft Teams desktop client

Administration tasks

Restore a deleted team:

The Azure Active Directory admin center

Archive a team:

The Microsoft Teams admin center

Permanently delete a team:

The Microsoft Teams admin center

Explanation:

Restore a deleted team:

NEW QUESTION: 35

The Subscription has the Teams policy shown in the following exhibit:

Microsoft Teams policy			
+	Add	✎	Edit
✓	Name ↑	Description	Custom policy
	Global (Org-wide default)	No	Off

You need to ensure that the members of Group1 can create private channels. The solution must use the principle of least privilege.

What should you do first?

- A. Create a Teams policy that has Create private channels set to On.
- B. Create a team template.
- C. Modify the Teams settings for the subscription.
- D. Modify the Global (Org-wide default) policy and set Create private channels to On.

Answer: (SHOW ANSWER)

NEW QUESTION: 36

You have a Microsoft 365 E5 subscription that uses Teams.

You need to implement a consistent team naming strategy that meets the following requirements:

- * All team names must start with the department name of the user that created the team.
- * All team names must be followed by the word Department.

How should you configure the group naming policy? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations

Add a prefix that has an attribute of Department.

Add a prefix that has a string of Department.

Add a suffix that has an attribute of Department.

Add a suffix that has a string of Department.

Answer Area

To ensure that all team names start with the department name of the user that created the team:

To ensure that all team names are followed by the word Department:

Configurations

Add a prefix that has an attribute of Department.

Add a prefix that has a string of Department.

Add a suffix that has an attribute of Department.

Add a suffix that has a string of Department.

Answer Area

To ensure that all team names start with the department name of the user that created the team:

To ensure that all team names are followed by the word Department:

Explanation:

Configurations

Add a prefix that has an attribute of Department.

Add a prefix that has a string of Department.

Add a suffix that has an attribute of Department.

Add a suffix that has a string of Department.

Answer Area

To ensure that all team names start with the department name of the user that created the team:

To ensure that all team names are followed by the word Department:

Add a suffix that has an attribute of Department.

Add a prefix that has an attribute of Department.

NEW QUESTION: 37

Your company has a marketing department and a sales department.

You have a Teams deployment.

You need to recommend an infrastructure that meets the following requirements:

- * Users in the sales department must share system audio.
- * Users in the marketing department must upload custom backgrounds.
- * Whenever possible, the virtual desktop infrastructure (VDI) must be prioritized to save costs.

What should you include in the recommendation for each department? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

NEW QUESTION: 38

You have a Microsoft 365 E5 subscription that uses Teams.

A user named User1 reports that the recording button is unavailable during a Teams meeting.

You need to ensure that the recording button is available for User1.

What should you configure in the Microsoft Teams admin center?

- A. Meeting template policies
- B. Meeting templates
- C. Meeting settings
- D. Meeting policies

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 39

Your company uses Teams.

A user named User1 cannot invite guest users to Teams.

What should you recommend using to identify the cause of the issue?

- A. self-help diagnostics
- B. Teams advisor
- C. Microsoft Teams Network Assessment Tool
- D. Microsoft 365 network connectivity test tool

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 40

You have a Microsoft 365 subscription that uses Microsoft Teams.

You plan to deploy Microsoft Teams voice.

Which two settings require a resource account? Each correct answer presents part of the solution.

NOTE: Each correct selection worth one point.

- A. Call park policies
- B. Auto attendant
- C. Call queues
- D. Emergency policies
- E. Guest access

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 41

You have a Microsoft 365 subscription that uses Microsoft Teams.

You need to identify the following:

The number of guest users on a team named Customer Support.

Users that use the Teams mobile app for iOS.

Which reports should you run? To answer, drag the appropriate reports to the correct requirements. Each report may be used once, more than once, or not at all.

drag the split bar between panes or scroll to view content.

Reports

Apps usage

Information protection licence

Teams device usage

Teams live event usage

Answer Area

Users that use the Teams mobile app for iOS: Report

Number of guest users on the Customer Support team: Report

Answer:

Reports

Apps usage

Information protection licence

Teams device usage

Teams live event usage

Answer Area

Users that use the Teams mobile app for iOS: Apps usage

Number of guest users on the Customer Support team: Teams device usage

Explanation:

App usage

Team Device usage

NEW QUESTION: 42

You need to troubleshoot the reported user issues.

What should you use?

- A. the Application log in Event Viewer
- B. the Teams support log files
- C. the WebRTC logs
- D. the System log in Event Viewer

Answer: (SHOW ANSWER)

NEW QUESTION: 43

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a user named User1 and three groups named Group1 , Group2 and Group3. User1 is a member of Group1, Group2, and Group3.

The subscription has the meeting policies shown in the following table.

Name	Configuration
Global (Org-wide default)	Meet now in channels: On Transcription: Off
Policy1	Meet now in channels: Off Transcription: Off
Policy2	Meet now in channels: On Transcription: Off

Statements	Yes	No
Meet now in channels is turned off for User1.	☐	☐
Transcription is turned off for User1.	☐	☐
The Global (Org-wide default) policy applies to User1.	☐	☐

Answer:

Statements	Yes	No
Meet now in channels is turned off for User1.	☒	☐
Transcription is turned off for User1.	☒	☐
The Global (Org-wide default) policy applies to User1.	☐	☒

Explanation:

Statements	Yes	No
Meet now in channels is turned off for User1.	☒	☐
Transcription is turned off for User1.	☒	☐
The Global (Org-wide default) policy applies to User1.	☐	☒

NEW QUESTION: 44

You have a Microsoft 365 E5 subscription that includes Teams. The subscription contains a user named User1 that is an owner of a team named Team1. Team1 contains members that include guest user accounts.

You need to ensure that User1 provides a quarterly confirmation for all the guest users that have a legitimate business need for membership to Team1.

What should you do?

- A.** From the Microsoft Teams admin center, configure the External access settings.
- B.** From the Microsoft Entra admin center, configure the External collaboration settings.
- C.** From the Microsoft Entra admin center, configure the Access reviews settings.
- D.** From the Microsoft Teams admin center, configure the Guest access settings.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 45

Your company has a Microsoft 365 subscription.

You have a Microsoft Teams team named Sales that is set to Private.

Users report that they can view the Sales team from a list of suggested teams.

You need to hide the team from the list of suggested teams.

What should you do from the Microsoft Teams client?

- A.** Modify the Team discovery settings.
- B.** Select the Hide team option.
- C.** Modify the team privacy settings.
- D.** Modify the team member permissions.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 50

Task 3

You need to ensure that a team named US Sales automatically contains all the users that have the department attribute set to Sales. No other users must be members of the team.

Answer:

See the solution in the explanation below:

Explanation:

To ensure that a team named US Sales automatically contains all the users that have the department attribute set to Sales, you need to create a dynamic team based on Azure AD group dynamic membership rules. Here are the steps to follow:

Create a new team in Microsoft Teams as you would to create a normal team. Name it US Sales. If the team already exists, you can skip this step.

Sign in to the Azure portal with your admin credentials.

Go to Azure Active Directory > Groups. Find the group that corresponds to the US Sales team and select it.

On the group details page, select Properties on the left menu and change the membership type to Dynamic user. Click Save.

On the same page, select Dynamic membership rules on the left menu and add an expression that dynamically retrieves the users that have the department attribute set to Sales. In this case, the expression is `user.department -eq "Sales"`. Click Save.

That's it. You have successfully created a dynamic team for US Sales. This means that only users with the department attribute set to Sales will be added or removed from the team automatically. You can also modify the expression to include other criteria, such as location, job title, or manage

NEW QUESTION: 51

You have a Microsoft 365 E5 subscription that uses Teams and contains three teams named Team1, Team2, and Team3.

You need to validate the owner of each team and identify the number of guest users that were added to each team.

What should you use in the Microsoft Teams admin center?

A. Manage users

B. Teams advisor

C. Manage teams

D. Usage reports

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 52

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you run the Network Planner.

Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 53

Your company has a Microsoft 365 subscription.

A user invites an external user to join a Microsoft Teams meeting by using a Microsoft Outlook meeting invitation.

The external user cannot join the meeting.

You need to ensure that all external users can join Microsoft Team meetings.

What should you do from the Microsoft Teams admin center?

- A. From Guest access in the Org-wide settings, set Allow guest access in Microsoft Teams to On.
- B. Edit the Meeting settings and set Anonymous users can join a meeting to On.
- C. Edit the global meeting policy and set Allow scheduling private meetings to On.
- D. Edit the live events policy and set Who can join live events to Everyone.

Answer: (SHOW ANSWER)

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/meeting-settings-in-teams>

NEW QUESTION: 54

You work as a Microsoft 365 Administrator for your company. All users have Microsoft 365 licenses.

Users frequently collaborate by using private chats in Microsoft Teams.

You need to ensure that a single user is unable to permanently delete private chats.

Which of the following should you configure?

- A. The user's Microsoft 365 license options in the Microsoft 365 Admin Center.
- B. A meeting policy in Microsoft Teams.
- C. A litigation hold on the user's mailbox.
- D. A Sensitivity Label in the Security & Compliance Admin Center.

Answer: (SHOW ANSWER)

To preserve electronically store information (ESI), you can put selected users or all users on legal hold to make sure that all message interchange are discoverable by the organization's compliance manager or teams admins. This has to be done in the Microsoft 365 Compliance center, creating a case to set the legal hold.

NEW QUESTION: 55

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named Project1 that contains the members shown in the following table.

Name	Role
User1	Owner
User2	Member
Guest1	Guest

Project1 contains the channels shown in the following table.

Name	Type
General	Standard
Budgets	Private
Planning	Standard

You need to identify which users can be added as a channel moderator, and which channels support moderation. What should you identify? To answer, select the appropriate options in the answer area.

NOTE:

Each correct selection is worth one point.

Answer Area  Microsoft

Users that can be added as a channel moderator:

Channels that support moderation:

Answer:

Answer Area  Microsoft

NEW QUESTION: 56

Task 6

You need to configure a virtual receptionist for your company's main office located at 1 Microsoft Way, Redmond. The solution must meet the following requirements:

- * Callers must press 1 for the company directory to lookup by name.
- * Callers must press 0 to hear the company address.
- * Callers must be offered the same menu at all times.

Answer:

See the solution in the explanation below:

Explanation:

To configure a virtual receptionist for your company's main office, you can use the Teams admin center to create and assign an auto attendant. An auto attendant is a voice menu system that allows callers to be transferred to an extension or a queue without speaking to an operator or receptionist. Here are the steps to create and assign an auto attendant that meets your requirements:

- * Sign in to the Teams admin center with your Microsoft 365 username and password.
- * In the left navigation, go to Voice > Auto attendants.
- * Click Add (+) to create a new auto attendant.
- * In the Basics tab, enter a name and an optional description for the auto attendant, such as "Main Office Receptionist".
- * Under Phone number, select Assign and then choose a service number from the list or click Add new number to get a new one. A service number is a type of phone number that can handle hundreds of simultaneous calls and is used for services such as audio conferencing, auto attendants, and call queues.
- * Click Apply and then Next.
- * In the Greeting and menu tab, under Greeting, select Custom and then click Upload audio file to upload a recorded greeting message for the callers, such as "Welcome to Microsoft. Please listen carefully to the following options."
- * Under Menu options, click Add (+) and then select Key press from the drop-down menu.
- * In the Key press box, enter 1 and then select Dial by name from the Action drop-down menu. This will allow callers to press 1 for the company directory to lookup by name.
- * Click Add (+) again and then select Key press from the drop-down menu.
- * In the Key press box, enter 0 and then select Play audio file from the Action drop-down menu. This will allow callers to press 0 to hear the company address.
- * Click Upload audio file and then upload a recorded message with the company address, such as "Our main office is located at 1 Microsoft Way, Redmond."
- * Under Menu options, turn on the toggle for Repeat menu until caller hangs up or presses #. This will offer the same menu at all times.
- * Click Next.
- * In the Business hours tab, under Business hours, select 24/7 from the drop-down menu. This will make the auto attendant available at all times.
- * Click Next.
- * In the Review tab, review your settings and then click Save.

Now, you have configured a virtual receptionist for your company's main office that meets your requirements.

NEW QUESTION: 57

You manage the Microsoft Teams environment for your company.

Several users report poor call quality.

You need to ensure that a user named Admin5 can review the call quality metrics of all the users at the company. The solution must use the principle of least privilege.

Which role should you assign to Admin5?

- A.** Teams Service Administrator
- B.** Teams Communications Support Engineer
- C.** Teams Communications Support Specialist
- D.** Teams Communications Administrator

Answer: (SHOW ANSWER)

NEW QUESTION: 60

You have a Microsoft 365 E5 subscription that includes Teams.

You need to recommend a solution to investigate actions that relate to the following Teams activities:

- * A new team is created.
- * A new channel is added to a team.
- * A team member changes their role membership.

The solution must ensure that you can specify a start date and end date of the activities.

What should you include in the recommendation?

- A. Teams usage reports
- B. Teams advisor
- C. eDiscovery
- D. Microsoft Purview Audit

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 61

You have a Teams deployment. A user cannot sign in to Teams.

You need to run self-help diagnostics to troubleshoot the issue.

Solution: From Connectivity Tests in Microsoft Remote Connectivity Analyzer, you select Microsoft Teams.

Does this meet the goal?

- A. Yes
- B. No

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 63

You have a Microsoft E5 subscription that uses Teams.
Your company uses the Microsoft Viva Connections app.
You need to configure the app to meet the following requirements:

- * Rename the app as Start
- * Replace Viva Connections with a custom logo.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

⋮ Configure a permission policy.

⋮ Customize the app.

⋮ Publish the app.

⋮ Customize the app store.

⋮ Upload the company logo.

⋮ Modify the app details and icons.

⋮ Assign a permission policy.

Answer:

Actions

⋮ Configure a permission policy.

⋮ Customize the app.

⋮ Publish the app.

⋮ Customize the app store.

⋮ Upload the company logo.

⋮ Modify the app details and icons.

⋮ Assign a permission policy.

Answer Area

⋮ Upload the company logo.

⋮ Modify the app details and icons.

⋮ Assign a permission policy.

Explanation:

Actions

⋮ Configure a permission policy.

⋮ Customize the app.

⋮ Publish the app.

⋮ Customize the app store.

NEW QUESTION: 64

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named R&D_Projects.

You need to prevent guest users from being invited to R&D_Projects. The guest users must be able to be invited to other teams.

What are two ways to block guest access to the R&D_Projects team? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Apply a sensitivity label to the R&D_Projects team.
- B. From the Microsoft Teams admin center, disable guest access.
- C. From the Microsoft 365 admin center, disable guest access.
- D. Configure a Microsoft 365 group expiration policy.
- E. From Azure PowerShell, run the New-AzureADObjectSetting cmdlet.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 65

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the groups shown in the following table.

Name	Type	Number of members
Group1	Distribution	11,500
Group2	Security	4,500
Group3	Distribution	2,500

You create a new team named Project1.

Which groups can be added to Project1?

- A. Group1 only
- B. Group2 only
- C. Group3 only
- D. Group1 and Group3 only
- E. Group1. Group2. and Group3

Answer: ([SHOW ANSWER](#))

Maximum size of distribution list, security group or Office 365 group that can be imported in to a team: 3,500.

NEW QUESTION: 66

You have a Teams deployment.
A user reports that the Teams client on their Windows device fails to update to the latest release automatically. What is the cause of the issue?

- A. A Teams update policy is misconfigured.
- B. The Teams upgrade settings are misconfigured.
- C. A config.office.com policy is misconfigured.
- D. The Teams client is installed to a non-default location.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 67

Your company has a Microsoft 365 subscription.
You need to prevent users from using Microsoft Teams to communicate with users in a partner company that uses an email domain named litewareinc.com.
What should you do from the Microsoft Teams admin center?

- A. Create a new meeting policy.
- B. Modify the External access settings.
- C. Turn off guest access.
- D. Create a new messaging policy.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 68

You have a Microsoft 365 E5 subscription that includes Teams.
All users are assigned the Teams Premium add-on license.
You need to schedule an event that supports 20,000 streaming participants and uses enterprise content delivery network (eCDN).
Which meeting template should you select?

- A. Webinar
- B. Virtual appointment
- C. Controlled-content meeting
- D. Town hall

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 69

You have a Microsoft 365 subscription that uses Microsoft Teams. The subscription contains 1,000 users in the groups shown in the following table.

Name	Requirement
Group1	Full access to chat, calling, apps, and meetings in Microsoft Teams must be provided.
Group2	Access to external participants must be prevented. Video conferencing and screen sharing must be disabled. Private meetings must be disabled. Specific apps must be installed automatically.

You need to configure Microsoft Teams to meet the requirements. The solution must minimize administrative effort.

What should you use?

- A. policy packages
- B. app setup policies
- C. Microsoft Teams policies
- D. Meetings policies

Answer: (SHOW ANSWER)

Reference:

<https://docs.microsoft.com/en-us/microsoft-teams/assign-policies>

NEW QUESTION: 70

You need to configure Microsoft Teams to meet the department upgrade requirements.

For each of the following statements, select Yes if that statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
The Microsoft Teams upgrade policy be set to Skype for Business with Teams collaboration and meetings coexistence mode for the sales department users.	☐	☐
The Microsoft Teams upgrade policy be set to Skype for Business only coexistence mode for the HR department users.	☐	☐
The Microsoft Teams upgrade policy be set to Teams only coexistence mode for the IT department users.	☐	☐

Answer:

NEW QUESTION: 72

You have a Teams deployment. A user cannot sign in to Teams.

You need to run self-help diagnostics to troubleshoot the issue.

Solution: From the Microsoft Teams admin center, you select Teams advisor.

Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 73

Your company has a Microsoft 365 subscription that contains three groups named HR, Marketing, and Sales.

You need to configure the Microsoft Teams desktop client. The solution must meet the following requirements:

Members of the HR group must be prevented from pinning apps to their app bar.

Members of the Marketing group must have the Microsoft Planner app pinned to their app bar.

Members of the Sales group must not be affected by policies applied to the Marketing and HR groups.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Modify the global app setup policy.

B. Modify the global app permission policy.

- C. Create an app setup policy for HR.
- D. Create an app setup policy for Marketing.
- E. Create an app permission policy for Marketing.
- F. Create an app permission policy for HR.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 75

You have a Microsoft 365 E5 subscription that uses Microsoft Teams

Users report poor call quality.

You need to identify the source of the call quality issues and which locations are affected.

What should you do first?

- A. Upload reporting labels for each location.
- B. Upload building data to the Call quality dashboard.
- C. Run the Teams user activity report.
- D. Run the Teams device usage report.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 76

Your company has a Microsoft 365 subscription.

All users have a computer that runs Windows 10 and has Microsoft Teams installed.

A user reports the following issues:

- * Users lose their connection during screen sharing.
- * The user selection process takes too long to complete.

* The Microsoft Teams client crashes and restarts automatically.

You need to view the Microsoft Teams debug logs to troubleshoot the issues.

What should you do?

A. From the Microsoft Teams client, select F1. Open the ETL files in the %Appdata%\Microsoft\Teams\ folder.

B. From the Microsoft Teams client, select Ctrl+Alt+Shift+1. Open the log files in the %Userprofile%\Downloads\ folder.

C. From Event Viewer, open the Application log and filter the log for a keyword of MSTeams.

D. Right-click the Microsoft Teams icon in the application tray, and then select Get logs. Open Logs.txt in the %Appdata%\Microsoft\Teams\ folder.

- C. Adoption Score in the Microsoft 365 admin center
- D. improvement actions in Compliance Manager

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 82

Your company has a Microsoft 365 subscription that contains a Microsoft Teams auto attendant.

Calls to the auto attendant will be redirected to a shared voicemail.

You need to create a group for the shared voicemail.

Which type of group should you create?

A. mail-enabled security

B. distribution

C. security

D. Microsoft 365

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-auto-attendant>

NEW QUESTION: 83

You need to resolve the notification issues identified during the pilot project.

What should you modify?

A. the global meeting policy

B. the global messaging policy

C. the org-wide Teams settings

D. the app permission policy

Answer: ([SHOW ANSWER](#))

<https://docs.microsoft.com/en-us/microsoftteams/messaging-policies-in-teams>

NEW QUESTION: 84

You have a Microsoft 365 subscription that uses Teams.

You deploy Teams to a branch office that has limited internet bandwidth.

You need to configure policy settings to enforce network bandwidth restrictions only when Teams users are in the branch office.

Which two policies should you configure? Each correct answer presents part of the solution.

NOTE Each correct selection is worth one point.

A. a meeting policy

B. an Audio Conferencing routing policy

C. a voice routing policy

D. a network roaming policy

E. a calling policy

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 85

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From the Azure Active Directory admin center, you modify the External collaboration settings.

Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

<https://docs.microsoft.com/en-us/microsoftteams/manage-guests>

NEW QUESTION: 86

You have a Microsoft Office 365 subscription that contains a user named User1.

You need to ensure that User1 can view Usage reports in the Microsoft Teams admin center. The solution must use the principle of least privilege.

Which role should you assign to User1?

A. Global Administrator

B. Usage Summary Reports Reader

C. Helpdesk Administrator

D. Skype for Business administrator

Answer: ([SHOW ANSWER](#))

According to the Microsoft Teams documentation¹, to access the usage reports in the Teams admin center, you must be assigned one of the following roles:

Global administrator

Teams or Skype for Business administrator

Global reader (only tenant-level aggregate and no per-user or team data) To learn more about Teams admin roles and which reports each admin role can access, see Use Teams administrator roles to manage Teams².

Therefore, based on this information, the correct answer is C. Teams Administrator. This role has the minimum privilege required to view usage reports in the Teams admin center.

NEW QUESTION: 87

Which type of license is required to meet the call handling requirements?

A. Teams Phone Standard

B. Teams Shared Device

C. Teams Phone with Calling Plan bundle

D. Teams Phone Resource Account

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 88

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From the Microsoft Teams client, you create a new team and select Create from an existing Office 365 group or team.

Does this meet the goal?

A. Yes

B. No

Answer: A (LEAVE A REPLY)

<https://support.microsoft.com/en-us/office/create-a-team-from-an-existing-group-24ec428e-40d7-4a1a-ab87-29be7d145865>

NEW QUESTION: 89

You have a Microsoft 365 subscription that has Azure Active Directory Premium Plan 2 licenses.

You need to implement Microsoft Teams lifecycle management to meet the following requirements:

- * All unused teams must be deleted after 180 days.
- * Inactive guest users must be removed from teams automatically every three months.
- * Microsoft Teams admin roles must only be assigned for specific time periods.

Which feature should you use for each requirement? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features

A Microsoft 365 group expiration policy
Access reviews in Azure Active Directory (Azure AD)
Azure Active Directory (Azure AD) Privileged Identity Management (PIM)
Entitlement management in Azure Active Directory (Azure AD)

Answer Area

All unused teams must be deleted after 180 days:	
Inactive guest users must be removed from teams automatically every three months:	
Microsoft Teams Admin roles must only be assigned for specific time periods:	

Answer:

Features

A Microsoft 365 group expiration policy
Access reviews in Azure Active Directory (Azure AD)
Azure Active Directory (Azure AD) Privileged Identity Management (PIM)
Entitlement management in Azure Active Directory (Azure AD)

Answer Area

All unused teams must be deleted after 180 days:

Inactive guest users must be removed from teams automatically every three months:

Microsoft Teams Admin roles must only be assigned for specific time periods:

A Microsoft 365 group expiration policy
Access reviews in Azure Active Directory (Azure AD)
Azure Active Directory (Azure AD) Privileged Identity Management (PIM)

Explanation:

All unused teams must be deleted after 180 days:	A Microsoft 365 group expiration policy
Inactive guest users must be removed from teams automatically every three months:	Access reviews in Azure Active Directory (Azure AD)
Microsoft Teams Admin roles must only be assigned for specific time periods:	Azure Active Directory (Azure AD) Privileged Identity Management (PIM)

NEW QUESTION: 90

You are assigned the Groups Administrator role. You discover that you cannot create an expiration policy in Microsoft 365. You need to create the expiration policy. The solution must use the principle of least privilege. What should you do first?

- A. Modify the global (Org-wide default) app permission policy.
- B. Request the Global Administrator role.
- C. Upgrade the Azure AD license.
- D. Purchase a Microsoft Defender for Identity license.

Answer: (SHOW ANSWER)

According to the Microsoft documentation 1 , to create an expiration policy for Microsoft 365 groups, you need to have one of the following roles:

- * Global administrator
- * Groups administrator
- * User administrator

The Groups Administrator role allows you to manage all aspects of Microsoft 365 groups, including their settings, classifications, expiration policy, and naming policy 2 . However, this role does not allow you to create an expiration policy for Microsoft 365 groups.

Therefore, based on this information, the correct answer is B. Request the Global Administrator role. This role has the highest level of permissions and can perform any administrative task in Microsoft 365 3 . Alternatively, you can request the User Administrator role, which can also create an expiration policy for Microsoft 365 groups 1 .

NEW QUESTION: 91

You have an Azure Virtual Desktop deployment.

You have a Teams deployment.

You deploy the Teams for virtual desktop infrastructure (VDI) client on an Azure Virtual Desktop session host and configure the registry settings as shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

Set-CsTeamsMeetingBroadcastPolicy
Set-CsTeamsMeetingConfiguration
Set-CsTeamsMeetingPolicy

Identity Policy1

-NewMeetingRecordingExpirationDays
-AllowCloudRecording
-ChannelRecordingDownload
-NewMeetingRecordingExpirationDays
-RecordingStorageMode

Answer:

Explanation:

NEW QUESTION: 93

Your company has a Microsoft 365 subscription that uses an Azure AD tenant named contoso.com. You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From the Microsoft Teams admin center, you modify the External access settings.

Does this meet the goal?

A. Yes

B. No

Answer: (SHOW ANSWER)

According to the Microsoft documentation⁴, external access settings in the Microsoft Teams admin center are used to control how users in your organization can communicate with users from other domains that use Teams or Skype for Business. External access settings do not affect how guest users in your tenant can use cameras during Teams meetings.

To prevent guest users in your tenant from using cameras during Teams meetings, you need to create and assign a custom meeting policy that has the Allow IP video setting turned off. You can do this by using the Microsoft Teams admin center or PowerShell. For example, to create and assign a custom meeting policy by using PowerShell, you can use the New-CsTeamsMeetingPolicy and Grant-CsTeamsMeetingPolicy cmdlets.

NEW QUESTION: 94

Task 10

You need to set Microsoft SharePoint as the only cloud storage option for all teams.

Answer:

See the solution in the explanation below

Explanation:

To set Microsoft SharePoint as the only cloud storage option for all teams, you need to use the Teams admin center to disable the third-party cloud storage services. Here are the steps to follow:

Sign in to the Teams admin center with your Microsoft 365 username and password¹.

In the left navigation, go to Org-wide settings > Services & add-ins.

Under Cloud file storage, click Manage.

In the Cloud file storage pane, turn off the toggles for Box, Dropbox, Google Drive, and Citrix ShareFile. This will disable these services for all teams and users in your organization.

Click Save.

Now, Microsoft SharePoint will be the only cloud storage option for all teams. Users will be able to access SharePoint files from the Files tab in each team channel or from the Files app on the left side of Teams.

NEW QUESTION: 95

You have a Teams deployment.

You deploy the new Teams client to users.

Some users report that the Teams Meeting add-in is missing from Microsoft Outlook after the deployment.

You need to ensure that Outlook has the Teams Meeting add-in.

What should you do?

A. Run the Teams client as an administrator.

B. Clear the Teams client cache.

C. Runsfsc.exe.

D. Uninstall the Teams Meeting add-in and restart Teams and Outlook.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 96

You have a Microsoft Office 365 subscription.

You need to prevent guest users from deleting channels from a Microsoft Teams team.

What should you use?

A. the Microsoft 365 admin center

B. the Microsoft Teams PowerShell module

C. the Azure Active Directory admin center

D. the Security & Compliance admin center

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/powershell/module/teams/set-team?view=teams-ps>

NEW QUESTION: 97

Your company has a Microsoft 365 E5 subscription.

You enable guest access for Microsoft Teams.

You need to prevent all users from downloading and opening files that contain malware by using Microsoft Teams channels.

What should you do first?

A. From the Azure Active Directory admin center, enable the End user protection baseline policy.

B. From the Azure Active Directory admin center, add an identity provider.

C. From the Microsoft 365 Defender portal, select Turn on Defender for Office 365 for SharePoint, OneDrive, and Microsoft Teams

D. From the Microsoft Purview compliance portal, create a data loss prevention (DLP) policy.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 98

Your company has a marketing department and a finance department.

You have a Teams deployment.

The marketing department plans to host a Teams session that has the following requirements:

* External attendees must register by using a registration page.

* Attendees must be able to use Microsoft Whiteboard during the session.

The finance department plans to host a Teams session that has the following requirements:

* 1,500 attendees must be able to interact within a Q & A session.

* The session must use enterprise content delivery network (eCDN) integration.

Which type of meeting should you recommend for each department? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 99

Your company has a Microsoft 365 subscription.

You need to configure Microsoft Teams to meet the requirements shown in the following table.

Requirement name	Requirement
Requirement1	Presenters must be able to record large meetings that contain 1,000 participants or more.
Requirement2	Anonymous users must be able to join Microsoft Teams meetings.
Requirement3	Presenters must be prevented from sharing an entire screen during Microsoft Teams meeting.

What should you configure for each requirement!? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement1: ▼

- Live event policies
- Live events settings
- Meeting policies
- Meeting settings

Requirement2: ▼

- Live event policies
- Live events settings
- Meeting policies
- Meeting settings

Requirement3: ▼

- Live event policies
- Live events settings
- Meeting policies
- Meeting settings

Answer:

Requirement1: ▼

Explanation:

1. Live events policy 2. Meetings settings 3. Meetings policy

NEW QUESTION: 100

Task 2

You need to configure only the Teams meeting invites of Allan DeYoung to first show a dial-in bridge number in Toronto, and then show then a dial-in bridge number in Paris in the body of his invites.

Answer:

See the solution in the explanation below

Explanation:

To configure the Teams meeting invites of Allan DeYoung to show a dial-in bridge number in Toronto and then a dial-in bridge number in Paris, you can use the Teams admin center to set the phone numbers included on his invites. Here are the steps to follow:

Sign in to the Teams admin center with your Microsoft 365 username and password1.

In the left navigation, go to Users and then select Allan DeYoung from the list of users.

In the user details page, go to Meetings and then click Edit next to Audio Conferencing.

In the Audio Conferencing pane, under Phone numbers, select Customized from the drop-down menu.

In the Customized phone numbers box, enter the phone numbers that you want to include on Allan's invites, separated by commas. For example, you can enter:

+1 416-555-1234 (Toronto), +33 1 55 55 55 55 (Paris)

Click Save and then Close.

Now, when Allan DeYoung schedules a Teams meeting, his invites will show the Toronto and Paris dial-in bridge numbers in the body of his invites, in the order that you specified.

NEW QUESTION: 101

Your company uses Phone System.

A group of users make outbound calls on behalf of the company's billing department.

You need to ensure that when the users make the outbound calls, their numbers are replaced by a phone number that is associated to an existing call queue.

What should you do first?

- A. Create a new calling policy and set Make private calls to On.
- B. Create a new calling policy and set Inbound calls can be routed to call groups to On.
- C. Create a new caller ID policy and set Replace caller ID to Anonymous.
- D. Create a new caller ID policy and set Replace caller ID to Service number.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 102

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From the Microsoft 365 admin center, you modify the Sharing settings.

Does this meet the goal?

- A. Yes
- B. No

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 103

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a distribution group named Group1 and a team named Project 1.

You add Group1 to Project 1.

100 new members are added to Group1.

When will the membership of Project1 will be updated to reflect the changes to the group membership?

- A. Automatically and immediately
- B. Automatically after 24 hours
- C. Only when the group is re-added manually to Project1

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 104

Your company has a Microsoft 365 E5 subscription.

You enable guest access for Microsoft Teams.

You need to prevent all users from downloading and opening files that contain malware by using Microsoft Teams channels.

What should you do first?

- A.** From the Azure Active Directory admin center, add an identity provider.
- B.** From the Security & Compliance admin center, create a data loss prevention (DLP) policy.
- C.** From the Security & Compliance admin center, select Turn on ATP for SharePoint, OneDrive, and Microsoft Teams.
- D.** From the Azure Active Directory admin center, enable the End user protection baseline policy.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 105

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that contains several Microsoft SharePoint Online sites.

You need to ensure that the content stored in a SharePoint modern team site named Sales is available from Microsoft Teams. The solution must ensure that when a new channel is added to a team, a folder for the channel is created in the Sales site.

Solution: From PowerShell, you run the Set-AzureADGroup cmdlet.

Does this meet the goal?

- A.** Yes
- B.** No

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 106

You are a Microsoft Teams administrator for your company.

All the teams used by the company's legal department must meet the following compliance requirements:

- * Each team must expire 365 days after it is created.
- * All team content must be deleted when the team expires.
- * An administrator must be able to restore deleted team content for 30 days.

What should you do?

- A.** From the Microsoft Teams admin center, modify the teams policy.
- B.** From PowerShell, run the New-AzureADMSGrouplifecyclePolicy cmdlet.
- C.** From the Security & Compliance admin center, create a data loss prevention (DLP) policy.
- D.** From the Microsoft 365 admin center, modify the Office 365 group settings.

NEW QUESTION: 110

You have a Microsoft 365 E5 subscription that has Teams Premium licenses. The subscription contains an Azure Virtual Desktop deployment that has a session host named Host1.

You plan to install the Teams for virtual desktop infrastructure (VDI) client on Host1.

You need to identify which Teams features will be unavailable to Host1.

Which two features should you identify? Each correct answer presents a complete solution.

NOTE Each correct selection is worth one point

- A. custom meeting backgrounds
- B. multi-window
- C. background blur
- D. end-to-end encryption
- E. live captions

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 111

You have a Teams deployment.

All users are assigned Microsoft 365 Copilot licenses.

You need to ensure that Teams meeting participants can access Copilot features during and after a meeting.

Which setting should you enable first?

- A. Require participant agreement for recording and transcription
- B. Live captions
- C. Transcription
- D. Live streaming

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 112

You have a Microsoft 365 subscription that contains 300 users. All the users have existing direct inward dial (DID) phone numbers. You plan to implement Phone System in Microsoft Teams. You need to migrate the users' DID phone numbers to Microsoft Teams. What should you do?

- A. From the Microsoft Teams admin center, run the porting wizard.
- B. From the Microsoft 365 admin center, open a service request
- C. From Voice in the Microsoft Teams admin center select Phone numbers, and then select Add
- D. From the Microsoft Teams admin center, create a dial plan.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 113

Your company has a Microsoft subscription.

The Microsoft 365 tenant uses a domain named contoso.com.

You need to ensure that team channels can receive email only from users in the company and email addresses that use an email domain named @fabrikam.com.

What should you modify?

- A. the list of accepted domains in Microsoft Exchange Online
- B. the External collaboration settings in the Azure Active Directory admin center
- C. the global teams policy
- D. the org-wide Teams settings

Answer: (SHOW ANSWER)

NEW QUESTION: 114

You have a Microsoft 365 E3 subscription that uses Microsoft Teams.
You plan to deploy 20 conference phones that will support Direct Routing and one-touch join for Teams calendar meetings.
Which type of license do you require for each phone?

- A. Common Area Phone
- B. Microsoft Teams Rooms Standard
- C. Microsoft 365 E3
- D. Microsoft 365 Business Standard

Answer: (SHOW ANSWER)

NEW QUESTION: 115

Your company has a Microsoft 365 subscription.
You need to customize meeting invitation emails to include the company logo.
What should you do in the Microsoft Teams admin center?

- A. From Teams settings, modify the Email integration settings.
- B. From Meeting settings, modify the Email invitation settings.
- C. From Meeting policies, create a new meeting policy and assign the policy.
- D. From Meeting policies, modify the Global (Org-wide default) policy.

NEW QUESTION: 125

Task 9

You need to deploy the Microsoft Viva Connections app to Teams and install the app as the first item on the app bar of the Teams client for all users.

Answer:

See the solution in the explanation below:

Explanation:

To deploy the Microsoft Viva Connections app to Teams and install the app as the first item on the app bar of the Teams client for all users, you need to use the Teams admin center and PowerShell. Here are the steps to follow:

- * Sign in to the Teams admin center with your Microsoft 365 username and password 1 .
- * In the left navigation, go to Teams apps > Manage apps.
- * Click Upload and then select the Viva Connections app package that you created using PowerShell 2 .

If you have not created the app package yet, you can follow the instructions in this article to do so.

- * After uploading the app package, click on the app name and then click Publish.

- * In the left navigation, go to Teams apps > Setup policies.
- * Select an existing policy or create a new one by clicking Add.
- * In the Setup policy pane, under Installed apps, click Add apps and then select the Viva Connections app from the list.
- * Drag and drop the Viva Connections app to reorder it as the first item on the app bar.
- * Click Save and then Close.

* To assign the setup policy to all users, you can use PowerShell to run the following cmdlet:

```
Get-CsOnlineUser | Grant-CsTeamsAppSetupPolicy -PolicyName " YourPolicyName " Replace "YourPolicyName" with the name of the policy that you created or modified in step 6.
```

Note: It may take up to 24 hours for the changes to take effect.

Now, you have deployed and installed the Microsoft Viva Connections app to Teams as the first item on the app bar for all users.

NEW QUESTION: 126

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You create an In-Place Hold for the Microsoft OneDrive for Business site of User1.

Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

Private chats are stored in user mailboxes, not on OneDrive.

NEW QUESTION: 127

You need to configure the environment to meet the security requirements for the R&D group.

What should you do first?

A. Add an identity provider.

B. Start the information barrier policy application.

C. Create two information barrier segments.

D. Create one information barrier policy.

Answer: ([SHOW ANSWER](#))

Create information barrier segments first, then create information barrier policy based on the segments then start the information barrier application.

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies>

NEW QUESTION: 128

Your company has a Microsoft 365 subscription.

When making voice calls from Microsoft Teams, users report poor call quality at specific times of the day.

You need to verify whether Quality of Service (QoS) is being applied to the calls.

What should you use?

A. the Microsoft Teams client

B. Microsoft Call Quality Dashboard

C. Network Testing Companion

D. Network Monitor

Answer: ([SHOW ANSWER](#))

References:

<https://docs.microsoft.com/en-us/microsoftteams/qos-in-teams#validate-the-qos-implementation>

NEW QUESTION: 129

Your company uses Teams. All users are assigned a Microsoft 365 F1 license.

You need to retain chats and files in Teams channels for at least one year after they are deleted. What should you do first?

A. From the Microsoft 365 admin center, enable Customer lockbox.

B. From the Audit settings of the Microsoft Purview compliance portal, select Start recording user and admin activity.

C. Assign the users a Microsoft 365 F3 license.

D. Assign the users a Microsoft 365 E3 license.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 130

You have a Microsoft 365 subscription that uses Microsoft Teams.

Users report poor call quality.

You need to identify whether Teams calls use TCP or UDP.

What should you review in the Microsoft Call Quality Dashboard?

A. Quality of Experience Reports

B. Quality Drill Down Reports

C. Endpoint Reports

D. Reliability Reports

Answer: ([SHOW ANSWER](#))

According to the Microsoft documentation³, you can use Endpoint Reports in the Microsoft Call Quality Dashboard (CQD) to identify whether Teams calls use TCP or UDP. Endpoint Reports show information about the devices and networks used in Teams calls and meetings, such as device name, manufacturer, model, OS version, network type, IP address, and transport protocol (TCP or UDP).

To access Endpoint Reports in CQD, you need to follow these steps³:

Sign in to CQD with your admin account.

In the left navigation pane, select Reports > Endpoint.

In the report list page, select one of the predefined endpoint reports, such as Endpoint by Manufacturer or Endpoint by Network Type.

In the report details page, you can see various metrics and filters for the selected report. You can also customize the report by adding or removing dimensions and measures.

To see whether Teams calls use TCP or UDP, you need to add Transport Protocol as a dimension to the report. To do this, select Add dimension, and then select Transport Protocol from the drop-down list.

The report will show the distribution of TCP and UDP usage for Teams calls based on the selected report type.

NEW QUESTION: 131

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Role
Admin1	Teams Administrator
User1	User
User2	User
User3	User
User4	User
User5	User

You have a team named Sales that is configured as shown in the following table.

Name	Privacy	Role	Members
Sales	Private	Owner	User1
		Member	User2
		Member	User3
		Member	User4

The Sales team contains the channels shown in the following table.

Name	Type	Owner	Members
Planning	Standard	User1	User2 User3 User4
Budget	Private	User2	User3 User4

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	☐	☐
User2 can add User5 as a member of the Budgets channel.	☐	☐
Admin1 can convert Planning into a private channel.	☐	☐

Answer:

Microsoft Statements	Yes	No
User1 can see the membership list of the Budgets channel.	☐	☒
User2 can add User5 as a member of the Budgets channel.	☒	☐
Admin1 can convert Planning into a private channel.	☐	☒

Explanation:

Statements	Yes	No
User1 can see the membership list of the Budgets channel.	☐	☒
User2 can add User5 as a member of the Budgets channel.	☒	☐
Admin1 can convert Planning into a private channel.	☐	☒

NEW QUESTION: 132

You have a Microsoft 365 subscription and an on-premises Active Directory domain that syncs by using Azure AD Connect.

You need to change the Membership type of a group from Assigned (static) to Dynamic User.

What should you use?

- A. the Azure Active Directory admin center
- B. Active Directory Users and Computers
- C. the Microsoft Teams admin center
- D. the Microsoft Teams client

Answer: (SHOW ANSWER)

NEW QUESTION: 133

Your company uses Microsoft Skype for Business Online and Microsoft Teams.

All Skype for Business Online users can make and receive PSTN calls. Microsoft Teams is configured for PSTN calls.

You plan to upgrade the Skype for Business Online users to Microsoft Teams.

The Teams upgrade settings are configured as shown in the Teams upgrade exhibit. (Click the Teams upgrade tab.)

Teams upgrade

Teams upgrade lets you set up your upgrade experience from Skype for Business to Teams for your users. You can use the default settings or make changes to the coexistence mode and app preferences to fit your organizational needs. [Learn more](#)

Coexistence mode

Coexistence mode ⓘ

Skype for Business only

Notify Skype for Business users that an upgrade to Teams is available ⓘ

☐ Off

App preferences

Preferred app for users to join Skype for Business meetings ⓘ

Skype for Business

Download the Teams app in the background for Skype for Business users ⓘ

☒ On

Save

Discard

You apply TeamsUpgradePolicy to the user accounts of the company's R & D and human resources (HR) departments by using the coexistence modes shown in the following table.

Department	Coexistence mode
R&D	TeamsOnly
HR	SfbWithTeamsCollabAndMeetings

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
Users in the R&D department will not be able to join Skype for Business Online meetings.	☐	☐
Existing Skype for Business Online meetings scheduled by users in the HR department will migrate automatically to Microsoft Teams.	☐	☐
Users in the HR department will be able to make and receive PSTN calls by using Microsoft Teams.	☐	☐

Answer:

Statements	Yes	No
Users in the R&D department will not be able to join Skype for Business Online meetings.	☐	☒
Existing Skype for Business Online meetings scheduled by users in the HR department will migrate automatically to Microsoft Teams.	☒	☐
Users in the HR department will be able to make and receive PSTN calls by using Microsoft Teams.	☐	☒

Explanation:

Statements	Yes	No
Users in the R&D department will not be able to join Skype for Business Online meetings.	☐	☒
Existing Skype for Business Online meetings scheduled by users in the HR department will migrate automatically to Microsoft Teams.	☒	☐
Users in the HR department will be able to make and receive PSTN calls by using Microsoft Teams.	☐	☒

Box 1: No

TeamsOnly: Can schedule meetings in Teams only, but can join Skype for Business or Teams meetings.

Box 2: Yes

By default, when assigning either TeamsOnly or SfbWithTeamsCollabAndMeetings to an individual user, any existing Skype for Business meetings scheduled by that user for the future are converted to Teams meetings.

Box 3: No

SfBWithTeamsCollabAndMeetings: Has the chat and calling functionality of user in SfBOnly mode.

SfBOnly: Can initiate chats and calls from Skype for Business only.

NEW QUESTION: 135

Your company has a Microsoft Office 365 subscription.

The company has offices in France, United States, and Belgium.

You plan to implement Phone System to meet the following requirements:

- * The office in Belgium must use SIP trunks from the current telecommunication provider.
- * The office in France must integrate the phone number range and an on-premises IP-PBX.
- * The office in the United States must minimize the infrastructure required to deploy the planned Phone System.

You need to recommend which PSTN connectivity meets the requirements.

Which PSTN connectivity should you recommend for each office? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

NEW QUESTION: 136

You have a Microsoft 365 E3 subscription that uses Teams. The subscription contains an administrator named Admin1 that is assigned the Teams Administrator role.

Admin1 reports that he can assign default policy packages to users but cannot create and assign custom policy packages.

You need to ensure that Admin1 can create and assign custom policy packages in Teams.

What should you do?

A. Assign a Microsoft 365 E5 license to Admin1.

B. Assign a Teams Premium license to Admin1.

C. For Admin1, run the Grant-CsGroupPolicyPackageAssignment PowerShell cmdlet.

D. For Admin1, run the Grant-CsUserPolicyPackage PowerShell cmdlet.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 137

Task 11

You need to restrict external Teams communication for both calling and personal chat to only organizational users that use the microsoft.com domain.

Answer:

See the solution in the explanation below

Explanation:

To restrict external Teams communication for both calling and personal chat to only organizational users that use the microsoft.com domain, you need to use the Teams admin center to configure the external access settings. Here are the steps to follow:

Sign in to the Teams admin center with your Microsoft 365 username and password.

In the left navigation, go to Org-wide settings > External access.

Under External access, turn on the toggle for Users can communicate with other Skype for Business and Teams users.

Under Cross-tenant access settings, click Manage settings.

In the Cross-tenant access settings pane, under Calling and chat, select Allow specific domains and then enter microsoft.com in the box below. This will allow your users to communicate with Microsoft users via calling and chat.

Click Save.

Note: You also need to make sure that microsoft.com has configured their external access settings to allow communication with your domain. See Communicate with users from other organizations for more details.

NEW QUESTION: 138

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.

Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From PowerShell, you run the New-CSExternalAccessPolicy and Set-CSExternalAccessPolicy cmdlets.

Does this meet the goal?

A. No

B. Yes

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 139

Your company has a Microsoft 365 subscription that contains several teams.

The company's security policy states that an administrator must be notified when a new team is created by using the Build a team from scratch option.

You need to configure the environment to meet the security policy requirement.

What should you do?

A. From the Azure Active Directory admin center, create a protection notification.

B. From the Microsoft Teams admin center, modify the global teams policy.

C. From the Security & Compliance admin center, create an alert policy.

D. From the Security & Compliance admin center, create a supervision policy.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 140

You have a Microsoft 365 E5 subscription that uses Teams.

You need to ensure that all the files in Teams channels are stored for at least one year after the files are deleted.

What should you do?

A. Create an Audit retention policy.

B. Enable Customer Lockbox.

C. Create a data loss prevention (DLP) policy for Teams chat and channel messages.

D. Create a retention policy for Microsoft SharePoint sites.

Answer: ([SHOW ANSWER](#))

<https://docs.microsoft.com/en-us/microsoft-365/compliance/retention-policies-teams?view=o365-worldwide>

NEW QUESTION: 141

You have a Teams deployment. A user cannot sign in to Teams.

You need to run self-help diagnostics to troubleshoot the issue.

Solution: From the Microsoft 365 admin center, you select Service health.

Does this meet the goal?

A. No

B. Yes

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 142

Task 2

You need to ensure that only users from litwareinc.com can be added to Teams as guest users.

Answer:

See the solution in the explanation below

Explanation:

To ensure that only users from litwareinc.com can be added to Teams as guest users, you need to configure the guest access settings in Azure Active Directory (AAD). Here are the steps to follow:

Sign in to the Azure portal with your admin credentials.

Go to Azure Active Directory > External identities > External collaboration settings.

Under Collaboration restrictions, select Allow invitations only to the specified domains (most restrictive).

In the Allow invitations to these domains box, enter litwareinc.com. You can also add more domains if you want, separated by commas.

Click Save to apply the settings.

That's it. You have successfully restricted the guest access in Teams to a specific domain. This means that only users with email addresses from litwareinc.com can be invited as guests to your teams. You can also prevent guests from being added to a specific team by using sensitivity labels¹ or PowerShell².

NEW QUESTION: 143

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you review the Microsoft Call Quality Dashboard.

Does this meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/turning-on-and-using-call-quality-dashboard>

NEW QUESTION: 144

Task 3

Adele Vance is a member of your company's technology adoption team.

You need to provide only Adele with the ability to turn on and off Teams preview features.

Answer:

See the solution in the explanation below

Explanation:

To provide only Adele Vance with the ability to turn on and off Teams preview features, you need to create and assign a custom update policy for her. Here are the steps to do so:

Sign in to the Microsoft Teams admin center with your Microsoft 365 username and password¹.

In the left navigation, go to Teams > Teams Update policies.

Select Add to create a new policy or select an existing policy to open Update policy.

Name the update policy, add a description, and select Enabled from the drop-down menu for Allow public preview. This option enables Teams Public Preview regardless of whether a user is enrolled in Office Current Channel (Preview). The end user must also opt in to Teams public preview in their Teams app².

Click Save and then Close.

In the left navigation, go to Users and then search for Adele Vance from the list of users.

In the user details page, go to Policies and then click Edit next to Assigned policies.

In the Assigned policies pane, under Update policy, select the policy that you created or modified in step 4 from the drop-down menu.

Click Apply and then Close.

Now, Adele Vance can turn on and off Teams preview features by following these steps in her Teams app3:

Select the three dots to the left of your profile to display the Teams menu.

Select About > Public preview.

Select Switch to Public preview or Switch back to standard version.

NEW QUESTION: 145

- What should you recommend to meet the Microsoft Teams requirements for guest access?
- A.** From the Azure Active Directory admin center, modify the External collaboration settings to include fabrikam.com only.
 - B.** From the Microsoft 365 admin center, modify the Office 365 groups settings.
 - C.** From the External access settings in the Microsoft Teams admin center, add fabrikam.com to the Allowed list of domains.
 - D.** From the Microsoft Teams admin center, turn off org-wide guest access and manually add guest users from fabrikam.com to teams.

Topic 3, A. Datum Corporation

A Datum Corporation is an energy company that has offices across North America and 3,000 employees.

A Datum has the offices shown in the following table.

Location	Type
Calgary	Main office
San Diego	Branch office
New York	Branch office
Edmonton	Field site

The office in Calgary has a 1 -Gbps internet circuit. The offices in San Diego and New York have 100-Mbps internet circuits. The field site in Edmonton has a 3-Mbps internet circuit.

A Datum has the following departments:

- * Information technology (IT)
- * Project management
- * Marketing

A Datum recently purchased a Microsoft 365 E5 subscription that has the Microsoft Teams Domestic Calling Plan add-on. All users are assigned Microsoft 365 E5 and Microsoft Teams Domestic Calling Plan licenses and Calling Plans is deployed.

Azure AD has the default Cross-tenant access settings configured.

The Teams policies settings are configured as shown in the following exhibit

The Teams client is deployed to a non-persistent Virtual Desktop infrastructure (VDI) used by the project management department.

Allow guest access in Teams is set to Off.

The Microsoft Viva Connections app is deployed to all users.

A Datum identifies the following issues:

- * An executive at the San Diego office reports that video drops during Teams meetings.
- * The Edmonton field site has limited bandwidth, and users report poor audio during Teams calls and meetings.
- * Users in the project management department report that they cannot give or take control during Teams calls and meetings while sharing their VDI desktop.

A Datum plans to implement the following changes:

- * Configure the media bit rate settings for the users at the Edmonton field site. The settings must apply only to the users while they are at the site, but NOT when they are at a different office.
- * Create a Teams channel to enable the project management department to collaborate with the IT department on a device upgrade project.
- * Implement a pilot rollout of Operator Connect for the users in the New York office. A port request was accepted already.
- * Create a Teams channel for the marketing department for external collaboration.
- * Rename the Viva Connections icon as Start portal.

A Datum identifies the following technical requirements:

- * The marketing department requires that all the files shared by using Teams remain available for at least three years after deletion.
- * The marketing department must be able to apply a watermark to content and video shared during Teams meetings.
- * All users require indefinite access to training videos recorded in Teams by the IT department
- * All access to Teams and shared resources must use the principle of least privilege.
- * Guest access must remain disabled.

NEW QUESTION: 146

You are a Microsoft Teams administrator for your company.
The company creates a new Microsoft Teams app named App1. A developer packages App1 as a ZIP file.
You need to ensure that App1 can be uploaded as a ZIP package to Microsoft Teams.
Which Apps setting should you turn on?

- A. Allow uploading custom apps.
- B. Enable new external apps by default.
- C. Enable default apps.
- D. Allow external apps in Microsoft Teams.

Answer: (SHOW ANSWER)

User1 can invite a guest user named user3@adatum.com to Project1.	☐	☒
User2 can invite a guest user named user4@fabrikam.com to Project1.	☐	☒
User3 can invite a guest user named user5@fabrikam.com to Project1.	☒	☐

Explanation:

Statements	Yes	No
User1 can invite a guest user named user3@adatum.com to Project1.	☐	☒
User2 can invite a guest user named user4@fabrikam.com to Project1.	☐	☒
User3 can invite a guest user named user5@fabrikam.com to Project1.	☒	☐

NEW QUESTION: 148

You have a Microsoft 365 subscription that uses Microsoft Teams and contains a user named User.
You need to ensure that User1 can investigate call-quality issues and identify the following types of information:
Caller and recipient names
Device names and IP addresses
The number and names of all meeting participants
The solution must use the principle of least privilege.
Which role should you assign to User1?

- A. Teams Device Administrator
- B. Teams communication support engineer
- C. Teams Administrator
- D. Teams communication admin

Answer: (SHOW ANSWER)

NEW QUESTION: 149

Task 5

You need to prevent incoming Teams call notifications when users are already on a Teams call or in a Teams meeting. The solution must NOT reject the call.

Answer:

See the solution in the explanation below

Explanation:

To prevent incoming Teams call notifications when users are already on a Teams call or in a Teams meeting, you can use the Teams admin center to enable the Mute notifications during meetings and calls option. This option will suppress the incoming call notifications without rejecting the call. The caller will still hear the ringing tone and the callee can still answer the call from the Teams app or the taskbar.

Here are the steps to enable this option:

Sign in to the Teams admin center with your Microsoft 365 username and password¹.

In the left navigation, go to Teams > Teams update policies.

Select an existing policy or create a new one by clicking Add.

In the Update policy pane, under Meetings and calls, turn on the toggle for Mute notifications during meetings and calls.

Click Save and then Close.

Note: You can assign different update policies to different users or groups of users. For more information, see Manage update policies in Microsoft Teams².

NEW QUESTION: 150

Your company has a Microsoft 365 subscription.

You need to create an auto attendant from the Microsoft Teams admin center.

Which object must be associated to the auto attendant?

A. a conferencing bridge

B. a shared mailbox

C. a Calling Plan

D. a resource account

Answer: ([SHOW ANSWER](#))

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-auto-attendant>

NEW QUESTION: 151

Your company has five offices. Each office has a unique phone number.

You plan to deploy Phone System to all the offices.

You need to ensure that each office has a unique greeting message for the weekdays and a unique greeting message for the weekends. The solution must minimize administrative effort.

D18912E1457D5D1DDCBD40AB3BF70D5D

What should you create?

A. one auto attendant that contains all five phone numbers

B. one call queue that contains all five phone numbers

C. five auto attendants that each contains one phone number

D. five call queues that each contains one phone number

NEW QUESTION: 158

You have a Microsoft 365 subscription that contains the users shown in the following table.

Name	Role
User1	Teams Administrator
User2	Teams Communications Administrator
User3	None

in Microsoft Teams, User3 creates a new team named Team1.

User1 configures the Groups Expiration settings as shown in the following exhibit.

* Group lifetime (in days) 180

* Email contact for groups with no owners user2@contoso.com

Enable expiration for these Office 365 groups All Selected None

+ Add Refresh Columns

Name	Membership Type
Team1	Assigned

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

User1 will receive a renewal notification 180 days before Team1 is due to expire.	☐	☐
User2 can renew Team1 before the team expires.	☐	☐
User3 will receive a renewal notification 30 days before Team1 is due to expire.	☐	☐

Answer:

User1 will receive a renewal notification 180 days before Team1 is due to expire.

User2 can renew Team1 before the team expires.

User3 will receive a renewal notification 30 days before Team1 is due to expire.

Explanation:

Answer Area

User1 will receive a renewal notification 180 days before Team1 is due to expire.	☐	☒
User2 can renew Team1 before the team expires.	☐	☒
User3 will receive a renewal notification 30 days before Team1 is due to expire.	☒	☐

NEW QUESTION: 159

Your company uses Microsoft Teams.

All users are assigned a Microsoft 365 E3 license.

You need to purchase add-on licenses that provide the following:

The ability to add a logo to the meeting lobby

Automatic protection against malicious links in chats

Which add-on license should you obtain for each requirement? To answer, select the appropriate options in the answer area.

The ability to add a logo to the meeting lobby:

Advanced Communications
Audio Conferencing
Communications Credits
Microsoft Teams Rooms

Automatic protection against malicious links posted in chats:

Microsoft Defender for Office 365

Advanced Communications
Compliance
Insider Risk Management
Microsoft Defender for Office 365

Answer:

The ability to add a logo to the meeting lobby:

Automatic protection against malicious links posted in chats:

NEW QUESTION: 162

You have a Microsoft 365 subscription that uses Teams and contains the users shown in the following table.

User1	Teams Administrator
User2	User
User3	User
User4	User

You have a private team named Sales that contains the members shown in the following table.

User	Role
User2	Owner
User1	Member
User3	Member

The Sales team contains the channels shown in the following table.

Name	Type	Channel moderation
Planning	Standard	On
Budgets	Private	Not applicable

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

 Microsoft

Statements	Yes	No
User1 is added automatically as an owner of the Budgets channel.	☐	☐
User2 is the only member who can start a new post in the Planning channel.	☐	☐
User4 can be added as a member of the Budgets channel.	☐	☐

Answer:

Answer Area

 Microsoft

Statements	Yes	No
User1 is added automatically as an owner of the Budgets channel.	☐	☒
User2 is the only member who can start a new post in the Planning channel.	☒	☐
User4 can be added as a member of the Budgets channel.	☐	☒

Explanation:

Answer Area

 Microsoft

Statements	Yes	No
User1 is added automatically as an owner of the Budgets channel.	☐	☒
User2 is the only member who can start a new post in the Planning channel.	☒	☐
User4 can be added as a member of the Budgets channel.	☐	☒

NEW QUESTION: 163

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named Project1 that contains the users shown in the following table.

 Microsoft	
Name	Role
User1	Owner
User2	Member

You create a Microsoft 365 groups expiration policy that has the following configurations:

- * Group lifetime (in days): 180
- * Email contact for groups with no owners: Ad mini
- * Enable expiration for these Microsoft 365 groups: Project1

The group expiration for Project1 is May 31, 2022.

Which users will be notified to renew Project1, and when will the users receive their first renewal notification? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

 Microsoft

Notified users:

- User1 only
- Admin1 only
- User1 and User2 only
- User1 and Admin1 only
- User1, User2, and Admin1

First renewal notification:

- May 1, 2022
- May 16, 2022
- March 31, 2022

Answer:

Answer Area

Notified users:

- User1 only
- Admin1 only
- User1 and User2 only
- User1 and Admin1 only
- User1, User2, and Admin1

First renewal notification:

- May 1, 2022
- May 16, 2022
- March 31, 2022

 Microsoft

Explanation:

Answer Area

Microsoft

Notified users: User1 only

First renewal notification: May 1, 2022

NEW QUESTION: 164

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You company has a Microsoft 365 subscription and a Virtual Desktop Infrastructure (VDI) solution.

The company's Microsoft Teams upgrade policy is set to Teams only coexistence mode.

You deploy the Microsoft Installer (MSI) package for Microsoft Teams to the VDI solution.

Several months later, users of the VDI solution report that their workstation is missing several new Microsoft Teams features.

You need to ensure that the VDI solution users can use the new Microsoft Teams features.

Solution: You uninstall the Microsoft Teams MSI package, and then reinstall a new Microsoft Teams MSI package.

Does this meet the goal?

A. Yes

B. No

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 165

Your company has a Microsoft 365 subscription. You add guest users to the organization.

The company's global live event policy is configured as shown in the following exhibit.

Global	
Description	
Allow scheduling	☒ On
Allow transcription for attendees	☒ On
Who can join scheduled live events	Everyone in the organization
Who can record an event	Always record

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

[Answer choice] can access live events.

	▼
Users who have an Azure AD account, external access users, and guest users	
Only users who have an Azure AD account and external access users	
Only users who have an Azure AD account and guest users	
Only users who have an Azure AD account only	

[Answer choice] can schedule live events.

	▼
All users who have an Azure AD account	
All users who have an Azure AD account and guest users	
Only global administrators	
Only team owners	

Answer:

[Answer choice] can access live events.

	▼
Users who have an Azure AD account, external access users, and guest users	
Only users who have an Azure AD account and external access users	
Only users who have an Azure AD account and guest users	
Only users who have an Azure AD account only	

[Answer choice] can schedule live events.

	▼
All users who have an Azure AD account	
All users who have an Azure AD account and guest users	
Only global administrators	
Only team owners	

Explanation:
