NEW QUESTION: 1

Which component of VMware Horizon Blast will provide a consistent experience (o end users regardless of the type of device or location of the device being used?

- A. Blast 3D
- B. Blast Live Communications
- C. Horizon Clients with Blast
- D. Blast Local Access

Answer: (SHOW ANSWER)

Explanation/Reference:

Reference:

<https://www.vmware.com/files/pdf/products/horizon/VMware-Horizon-FAQ.pdf>

NEW QUESTION: 2

What two components must be installed and configured to allow RDS hosts to deliver application?

(Choose two)

- A. View Agent
- B. Windows Routing and Remote Access Services
- C. PCoIP agent
- D. Windows Remote Desktop Services

Answer: (SHOW ANSWER)

NEW QUESTION: 3

A business has employees in a call center that need access to the same database and call center applications and wants to make it easy to deploy, patch and upgrade these applications.

Which Horizon (with View) feature meets this business need?

- A. Full Clones
- B. Persona Management
- C. Linked Clones
- D. Dedicated Pools

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 4

Which technique does VMware vRealize Operations for Horizon 6 use to determine the upper and lower range of normal behavior for each metric?

- A. Pro-Active Smart Alerts
- B. Super Metrics
- C. Dynamic Thresholding
- D. Self Learning Analytics

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

Reference:

NEW QUESTION: 5

Which statement represents a Customer Requirement that could be met by implementing a VMware Horizon (with View) deployment?

- A. We want to reduce the amount of hardware in our datacenter by making more.
- B. We are looking for an easy way to recover our user services in the event of unplanned downtime.
- C. We need to centralize our management functionality and be able to quickly and efficiently monitor our datacenter services.
- D. We need to centralize access to common services and provide a uniform, secure, easy to manage image for employee access.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 6

The security manager is concerned that users are storing sensitive corporate data in public data sharing services. The manager has these requirements:

Users must be able to share data

-
- Data must be stored in the corporate data center
-

Administrators should have granular policy-based control of Sharing

Which VMware product meets these requirements?

- A. Horizon Workspace Portal
- B. Virtual SAN
- C. VMware Mirage
- D. Horizon (with View)

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 7

An administrator is using VMware Mirage to create a base operating system image, but is concerned that deploying this operating system to different types of hardware can cause many problems.

What two tasks can an administrator implement to avoid this issue? (Choose two)

- A. Use a specific Application Layer driver during deployment.
- B. Create operating system image via Sysprep with all pre-installed drivers.
- C. Deploy, maintain and use a Driver Library.
- D. Allow users to install their own drivers and applications.

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

Reference:

<http://blogs.vmware.com/vsphere/2014/04/horizon-view-6-0-virtual-san-match-made-vmware.html>

NEW QUESTION: 8

A business has a widely distributed sales force where many users do not live anywhere near a dedicated office. The business wants to issue them a laptop and manage the laptop remotely.

Which VMware solution meets this business need?

- A. VMware AirWatch
- B. VMware ThinApp
- C. VMware Mirage
- D. VMware Workspace Portal

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 9

A manager is planning next year's budget and is concerned that desktop computers cost too much money for the length of time they are able to be used. The manager wants a solution that is not just simple, but one that will last for years with little required maintenance.

Which type of business challenge is the manager being faced with?

- A. Security
- B. Management
- C. Accessibility
- D. Application

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 10

- A. To further protect our data, we need to make sure that even if someone gets an authorized user's credentials, they can't login with them.
- B. Some users have graphics Intensive Jobs and need the highest quality and performance possible.
- C. Our existing storage device is already heavily used; we want to minimize the additional space required for the new desktop virtualization system.
- D. Physical computers cost so much to buy, maintain, and replace. It would be great to have a simple device that would last for years and require little if any maintenance effort.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 11

An administrator needs to deliver secure virtual desktops with access to IT resources for offshore contract employees. Since the employees are far from the office, the administrator must ensure a seamless user experience, as the company will not deploy additional resources for these users.

Which solution offers the functionality required by the company?

- A. AirWatch Secure Content Locker
- B. VMware vRealize Automation
- C. VMware Horizon Desktop as a Service
- D. VMware Horizon (with View)

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 12

Which three products have been integrated into VMware Workspace Suite to power virtual workspaces and combine application and data management on devices? (Choose three.)

- A. vRealize Automation
- B. vCenter Server
- C. VMware Horizon (with View)
- D. AirWatch Mobility
- E. VMware Workspace Portal

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 13

An administrator wants to make a centralized Web Management Console available to desktop and mobile users. End users should be able to request applications and virtual desktop resources customized specifically for them.

Which VMware product can offer this functionality?

- A. VMware ThinApp
- B. VMware Workspace Portal
- C. VMware vRealize Automation
- D. VMware Mirage

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

A medium sized company wants to deploy on-premises desktops and application a unified workspace. The company has chosen to deploy Virtual SAN and offer a unified workspace. Which VMware Horizon edition does the company need to purchase?

- A. VMware Horizon Enterprise
- B. VMware Horizon DaaS
- C. VMware Horizon Advanced
- D. VMware Horizon View Standard

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 15

An application needs to be deployed to corporate employees to assist them with daily administrative duties. In order to comply with corporate policy, the application needs to be verified to identify common application risks, such as access to privacy settings and insecure network connections.

Which VMware AirWatch product provides this capability?

- A. Mobile device management
- B. App Wrapping
- C. App Catalog
- D. App Reputation Scanning

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 16

Which two actions can an administrator deploy a ThinApp application to a group of users, while also providing reporting and license compliance functionality?

- A. Deploy the ThinApp application using vmw.iio view Administrator.
- B. Deploy the ThinApp application using VMware Workspace Portal
- C. Deploy the ThinApp application using Microsoft Group Policies.
- D. Deploy the ThinApp application using VMware Update Manager.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 19

An administrator wants to ensure ease of access to company systems for employees, while preventing unauthorized access when VMware Horizon Desktop as a Service (DaaS) has been implemented.

Which two VMware Horizon DaaS features will help the administrator meet corporate requirements?

(Choose two.)

- A. Onsite Security Server.
- B. Integrated two-factor authentication capabilities.
- C. Brokered access to VMware Workspace.
- D. Automatic adoption of existing security policies.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 20

- A. Remote Office Branch Office (ROBO)
- B. Software Defined Data Center
- C. Application-Centric Computing
- D. Workforce Mobility

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 21

Which two application support issues can be eliminated by using VMware ThinApp application virtualization? (Choose two.)

- A. Users need to be given administrative credentials for their PCs in order to install some applications.
- B. Applications can make registry or system file changes that conflict with other applications.
- C. Users require multiple licenses for applications installed on different systems.
- D. Applications require large amounts of redundant disk space when installed in end user PCs.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 22

In which two ways can an administrator directly distribute VMware ThinApp packaged applications to users? (Choose two.)

- A. Stream the application from a file server.
- B. Submit the file to the vSphere App Store for users to download
- C. Copy the application file locally and get the users to run it local
- D. Deploy the application OVF using the vSphere Web client.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

Which statement represents a significant advantage of using vRealize Operations for Horizon 6?

- A. Administrators can receive color coded emails indicating the severity of issues or problems in their virtualized data centre.
- B. The administrator's monitoring window flashes with a colored surround immediately an issue or problem occurs in their virtualized environment.
- C. Smart alerts are generated when performance data of monitored objects deviates from acceptable norms, or when a problem occurs.
- D. Performance issues and problems appear as color coded pop-ups on an administrator's management window.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

A growing company is experiencing scalability issues with delivering virtual desktops to its employees.

The company has these requirements

The solution must allow many virtual desktops to be easily provisioned and delivered.

The solution should allow virtual desktops to be delivered and requested via a Self Service Catalog.

Which VMware product meets these requirements?

- A. VMware Horizon with Blast
- B. VMware vRealize Automation
- C. VMware vCenter Server
- D. VMware Mirage

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 25

An administrator needs to deliver rich virtualized graphics to VMware Horizon (with view) desktops which offer workstation-class performance.

Which VMware Blast technology can moot this requirement?

- A. Blast 3D
- B. Blast Multimedia
- C. Blast Unity Touch
- D. Blast Local Access

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 26

A user's laptop has a message displayed on screen indicating that all the data has been encrypted and requires payment to decrypt the data.

Which action can an administrator take to recover the laptop?

- A. Deploy VMware Mirage Disaster Recovery Wizard.
- B. Terminate the current VMware Mirage image and roll back the user's image to the last known good image.
- C. Ask the user when the last time the laptop was working correctly, then deploy a VMware Mirage Gateway and select the correct image.
- D. Configure a VMware Mirage Branch Reflector to correct the problem.

NEW QUESTION: 27

Which VMware solution will allow an administrator to manage the migration and deployment of 100 or more desktops from Windows 7 to Windows 8.1 with minimum downtime using a central management console?

- A. View Administrator
- B. VMware Thinapp
- C. VMware Workspace Portal
- D. VMware Mirage

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 28

An administrator needs to deliver corporate virtual desktops to end users globally. Currently, users traveling between branch offices complain of slow access at certain locations. Which VMware Horizon technology will provide a high quality end user experience, regardless of the user's location?

- A. VMware vRealize Operations for Horizon 6
- B. VMware Blast with HTML Access
- C. VMware Workspace
- D. VMware Horizon Cloud Pod Architecture

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 29

An administrator is concerned about reoccurring licensing issues within their organization. Which product or component will help resolve these issues?

- A. VMware Workspace Portal
- B. VMware Mirage
- C. Linked Clones

D. View Administrator

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 30

A. The policies are automatically and individually applied to non-persistent virtual desktops.

B. The policies are configured using a Virtual SAN custom storage policy.

C. The policies are upon deployment of a virtual desktop from a linked clone.

D. The policies are automatically and individually applied per disk.

NEW QUESTION: 32

A company is planning to use the Horizon 6 product suite to transform the end user computing environment in the organization.

Which two statements represent capabilities of the Horizon 6 family of products can help the company fully transform their environment? (Choose two.)

- A. VMware Virtual SAN provides a centralized management console for administrators to manage end user document workspaces.
- B. VMware ThinApp is a remote desktop solution that will allow you to move all desktops to central location.
- C. VMware Mirage is a centralized desktop image management technology that supports layered image management.
- D. VMware Horizon (with View) virtualizes user operating systems, applications and user data.

Answer: (SHOW ANSWER)

Explanation/Reference:

Reference:

<http://www.vmware.com/in/products/horizon-mirage>

NEW QUESTION: 33

A company has engaged a consultant to configure a way to provide a generic virtual desktop to users as they login. Users will not save data to their desktop and all client data is redirected through Group Policy Objects.

Which Horizon (with View) feature will accomplish this request?

- A. Linked Clones
- B. Full Clones
- C. Floating pools
- D. Dedicated pools

Answer: D (LEAVE A REPLY)

NEW QUESTION: 34

Which two use cases can be met by implementing VMware ThinApp? (Choose two.)

- A. Running a Linux application on a Windows 8 PC.
- B. Running an Internet Explorer 6 based application on a Windows version that no longer supports Internet Explorer 6.
- C. Running a Mac OS X application on a Windows 8 PC.
- D. Running multiple versions of the same application side by side on the same PC.

Answer: (SHOW ANSWER)

NEW QUESTION: 35

You are responsible for providing access to a corporate desktop for selected contractors. The contractors should be prevented from installing software on their laptops. Which solution provides the easiest way to meet these requirements?

- A. Email the IT administrator for the contractor's organization and ask them to provide the contractors administrative access so they can install the View client on their laptops.

- B.** Email the 11 administrator for the contractor's organization and ask them to Install a View client on their laptops.
- C.** Give each contractor a new desktop machine with restricted rights.
- D.** Give the contractors access to View desktops that have the HTML Access Feature Pack enabled.

Answer: ([SHOW ANSWER](#))

Explanation/Reference:

Reference:

<https://www.vmware.com/pdf/horizon-view/horizon-view-52-feature-pack-document.pdf>

NEW QUESTION: 36

An administrator wants to minimize the load caused by virtual desktop traffic In order to maximize performance on an excessively taxed infrastructure Which type of business challenge is the administrator faced with?

- A.** Application
- B.** Security
- C.** Availability
- D.** Management

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 37

Your manager has asked you to implement a VMware Horizon (with View) solution in your environment.

Which solution is best suited for a group of users where the desktop must be deleted and recreated after each use?

- A.** Dynamic Pools
- B.** Manual Pools
- C.** Dedicated Pools
- D.** Floating Pools

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 38

A company wants to purchase several physical servers, which will be deployed as Virtual SAN- enabled FSXi hosts. The company is unsure which disk architect tire types are required to be installed in the server in order to deploy Virtual SAN.

Which two types of physical disks are required to deploy Virtual SAN? (Choose two.)

- A.** SATA disks tor performance
- B.** Flash based devices (SSD) for capacity
- C.** Flash based devices (SSU) for performance
- D.** Magnetic disks tor capacity

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 39

A consultant is designing a Horizon (with View) deployment and has been informed by the client that several departments allow their users to work from home three days a week. Which product or component can help secure the users' access to their virtual desktops?

- A. NSX Manager
- B. VMware Workspace Portal
- C. AirWatch Secure Content Locker
- D. View Security Server

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 40

- A. Enterprise Integration
- B. Security
- C. User Experience
- D. Tiered Role Separation

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 41

Which statement reflects a Security challenge that could be addressed by a new VMware Horizon (with View) deployment?

- A. Some of our sales force do not live anywhere near one of our offices. We'd like to issue them a laptop and manage the physical laptop remotely.
- B. We want a simple, easy way to provision virtual desktops, determine who gets to use them, and specify who can check them out for remote access.
- C. We have a lot of our sales force that rarely work in the office. We need a way to deploy new applications to them and to keep them updated.
- D. We need a centralized way to store data that is under our company's control, regardless of whether the data is stored in local datastores or within a hybrid cloud provided solution.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 42

A company wants to deploy VMware Workspace Portal in its environment, but is concerned that users will be able to use unauthorized applications. Which mechanism of VMware Workspace Portal prevents this behavior?

- A. Unauthorized access to applications is detected and the administrator is notified.
- B. User attributes are detected and policies are enforced across applications.
- C. Access to applications by default is not allowed. Each user must request access via the interface.
- D. Authorized user credentials are detected from Active Directory.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 43

A Help Desk engineer has expressed concern about the security of user data in virtual desktop sessions.

How is user data potential in View session?

- A.** Horizon (with View) caches user data in local RAM on each ESXi host to avoid transmission across the network.
- B.** Horizon (with View) uses CHAP to protect user data.
- C.** Horizon (with View) encrypts user data at the Connection Server and decrypts it with a user-supplied smartcard.
- D.** Horizon (with View) encapsulates and encrypts sessions using SSL to protect user when using PCoIP.

Answer: (SHOW ANSWER)
